IN THE NEWS

THE TOILET

Here are some useful "toilet" words and expressions.

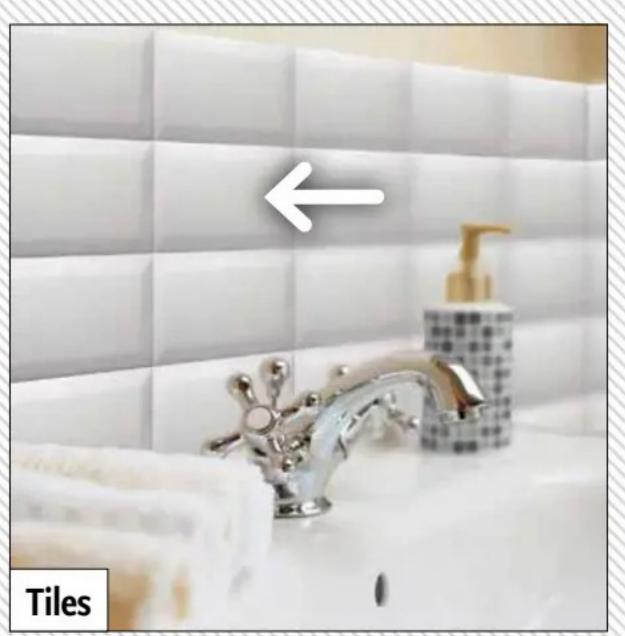

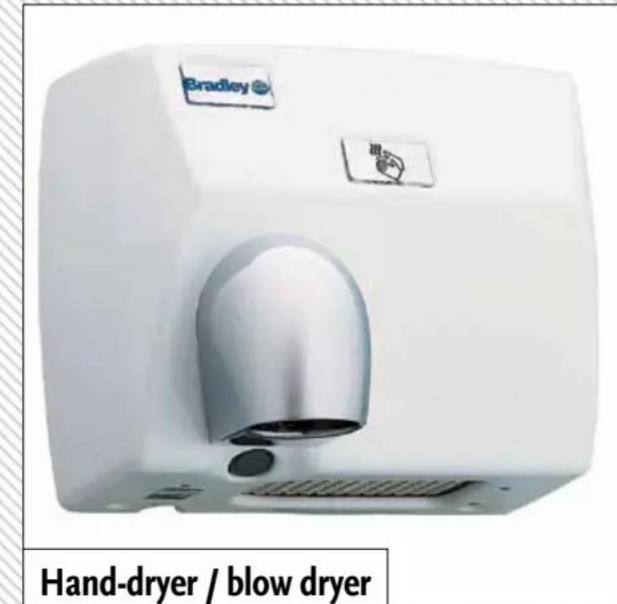

More words

- The toilets / the restroom (US) – a general word for the toilets in a restaurant, shopping centre, etc.
- Public toilet a toilet in a public area that anyone can use. Some are coinoperated (you have to put money into them in order to use them).
- Flush the toilet to press a button (or pull a chain) so that water goes into the toilet to clean it.
- The ladies public toilets for women.
- The gents public toilets for men.
- Go to the toilet if you "go to the toilet", you use the toilet.

IMAGINE ALL

THE PEOPLE...
WHO HAVE

USED THIS!

Objective To improve your reading and listening skills.

Think about it

How would you describe your bathroom? What's the most unusual bathroom you've ever seen? What was unusual about it? Are there any famous toilets in your country? Why are they famous? Have you ever been to the toilet in another country? How were the toilets different?

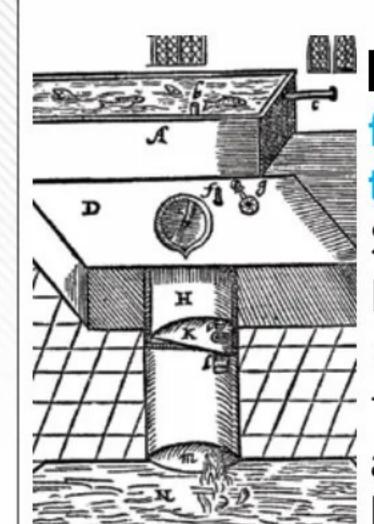

FAMOUS

ust recently, John Lennon's toilet was sold for £9,500. It was used by the Beatle between 1969 and 1972. Here are three more famous toilets.

The solid-gold toilet

The solid-gold toilet is made of 24-carat gold. And everything else in the bathroom is made of gold too, including the tiles and the sink. The toilet is on display at Hang Fung Gold Technology's showroom in Hong Kong, and it's worth more than \$29 million. For just \$20 HK you can have a photo taken in the bathroom, although you have to wear plastic covers over your shoes so you don't damage the 900gram **gold bars** on the floor. The bathroom was created in 2001 by jeweller Lam Sai-wing. He was inspired by **Lenin**'s idea that the best thing for gold was to use it to build public toilets. Meanwhile, the showroom seems to be working as some people who visit the shop buy their own golden bathroom accessories.

2 The first flushing toilet Sir John Harrington

(1561 to 1612) was a wellknown poet.

However, he was also famous for inventing the first flushing toilet. He installed the contraption, which he named Ajax, in his house. Harrington was a godson of Queen Elizabeth I. One day, the Queen tried it and was so impressed that she ordered one for herself. The toilet had a pan with an opening at the bottom. Water from a cistern was poured into the pan through a system of levers and weights. However, flushing toilets only became available for ordinary people after Scotsman Alexander Cumming **patented** the design for one in 1775.

3 The Toto

The Toto is *the* toilet to have. It's really popular in Japan and can be found in over 70% of households. This exclusive toilet has a heated seat, a system for eliminating bad smells and a jet of water that cleans you as you're sitting down. It even puts the seat lid down after you've finished. Toto is one of the three largest plumbing manufacturers in the world with over 20,000 employees. Net sales in 2006 were \$4.2 billion.

Who ever thought that going to the toilet could be such a pleasure? 😊

WORLD TOILET DAY

World Toilet Day is celebrated on 19th November. It's hosted by the World Toilet Organization, which aims to raise awareness for the 2.5 billion people around the world who don't have access to a toilet or proper sanitation.

This reading and listening activity will help prepare you for English exams such as KET and TOEFL.

Answers on page 48

Pre-reading

When was the last time you ate the following food? Where were you? Who were you with?

Reading I

Why do you think some people like or dislike food photography? Make notes. Then, read the article once to compare your ideas.

3 Reading II

Read the article again. Then, answer the questions.

- 1. What kind of pictures do people upload to www.saddesklunch.com?
- 2. Who created www. saddesklunch.com?
- 3. Where is Gilles Goujon's restaurant?
- 4. Which news website did he talk to?
- 5. Who is the chef at the "Grenouillere" restaurant?
- **6.** What has he included on his menus?

THE GROWING POPULARITY OF FOOD PHOTOGRAPHY!

aking a photo of your food and posting it online is becoming more and more popular. However, not everyone thinks it's such a good idea.

Food photos are popular on social networking sites. People often post pictures of their meals on Facebook or photo sites such as Tumblr and Instagram. Many of the pictures are of delicious looking food from top-class restaurants. Some people even find it addictive. "I couldn't get enough of it. I had to IG (Instagram) every single meal," one food poster wrote.

However, not all food photos are so attractive. There are now sites where you can post pictures of horrible-looking food. One such website is saddesklunch. com. Users **submit** pictures of their depressing meals, which include things such as half-eaten bits of chicken, **leftover** pizza and **dodgy**looking soup.

Sad Desk Lunch was created by office worker Kira Fisher in 2012. At the time, she was working as a video editor in New York. "I was **staring** at my rather unappealing lentil

soup, which I was eating at my desk, and just thought, I can't believe I eat this gruel, let alone eat it alone at my desk," she said. Other similar sites include cooksuck. com, foodporndaily.com and dimlylitmealsforone.tumblr.com.

Some chefs are trying to ban food photography in their restaurants. Gilles Goujon runs the three-starred "L'Auberge du vieux puits" restaurant in Fontjoncouse in southern France. He told news website France TV Info that every time his creations appear on social networks it "takes away the surprise, and a little bit of my intellectual property."

Alexandre Gauthier is the chef at the "Grenouillere" restaurant in the northern French town of La Madelaine-sous-Montreuil. He has included a "no cameras" logo on his menus. "Before, people took pictures of their family in the restaurant, now we take pictures of food... We tweet, we "like", we respond to comments, and the dish is cold," he explained.

Will you be taking your camera next time you eat out? 🔾

Lie down

If you "lie down", you go into a horizontal position (you aren't standing or sitting). The past is "lay down" and the participle is "lain".

"We lay down on the sand and went to sleep."

When you "sweat", liquid comes out of your body because you're very hot.

"I was sweating because it was so hot."

Learning expressions

The best way to learn any words or expressions is by seeing or hearing them in context when you're reading or listening to English. Make a note of any words or expressions that you like (or want to learn) and write these down in sentences. Remember, always record language in phrases or sentences – never as individual words. You should also practise using the words or expressions as often as you can: in conversation, on the phone, in e-mails, etc.

HOW TO DESCRIBE SIMPLE FACTS WITH ZERO CONDITIONALS

Affirmative

If I press this*, it** starts.

If you press this, it starts.

If he presses this, it starts.

If she presses this, it starts.

If it presses this, it starts.

If we press this, it starts.

If they press this, it starts.

*this = a button / **it = a machine

Negative

If I don't press this, it doesn't start.

If you don't press this, it doesn't start.

If he doesn't press this, it doesn't start.

If she doesn't press this, it doesn't start.

If it doesn't press this, it doesn't start.

If we don't press this, it doesn't start.

If they don't press this, it doesn't start.

Interrogative

If I press this, does it start?

If you press this, does it start?

If he presses this, does it start?

If she presses this, does it start?

If it presses this, does it start?

If we press this, does it start?

If they press this, does it start?

We can form the Zero Conditional with *if* + a verb in a present tense, and another clause with a present tense verb. For example:

- a) If you open the window, it gets cold in here.
- b) If you leave chocolate in the hot sun, it melts.

We use conditionals to refer to something that will happen if something else happens first. For example:

- a) If I go to bed late, I feel terrible the next day.
- b) If I work on the computer too much, my eyes start to hurt.

We often use the Zero Conditional to talk about simple facts or things that are always true (when the condition is met). You can start with the "if" clause or the other clause. For example:

a) If I go out in the sun,

- I always put on some sun cream.
- **b)** The machine comes on **if** you press the green button.

We can also use when with Zero Conditionals to mean "every time that" or "whenever". For example:

- a) When I go to the cinema, I always buy some popcorn.
- b) When I'm sad, I like to go shopping.

We can use imperatives with Zero Conditionals. For example:

- a) If it stops, **press** this button here!
- b) When you're ready, call me!

We can use a variety of different tenses and verbs with Zero Conditionals. For example:

- a) If they're trying to work, don't make too much noise. [the Present Continuous]
- b) When you've finished that, let me know. [the Present Perfect]
- c) If I drink too much coffee, I can't sleep at night.
 [Modal verbs]

MATURAL ENGLISH

Where would you like to live in the future?

Photos and interviews by Georgie & Danielle

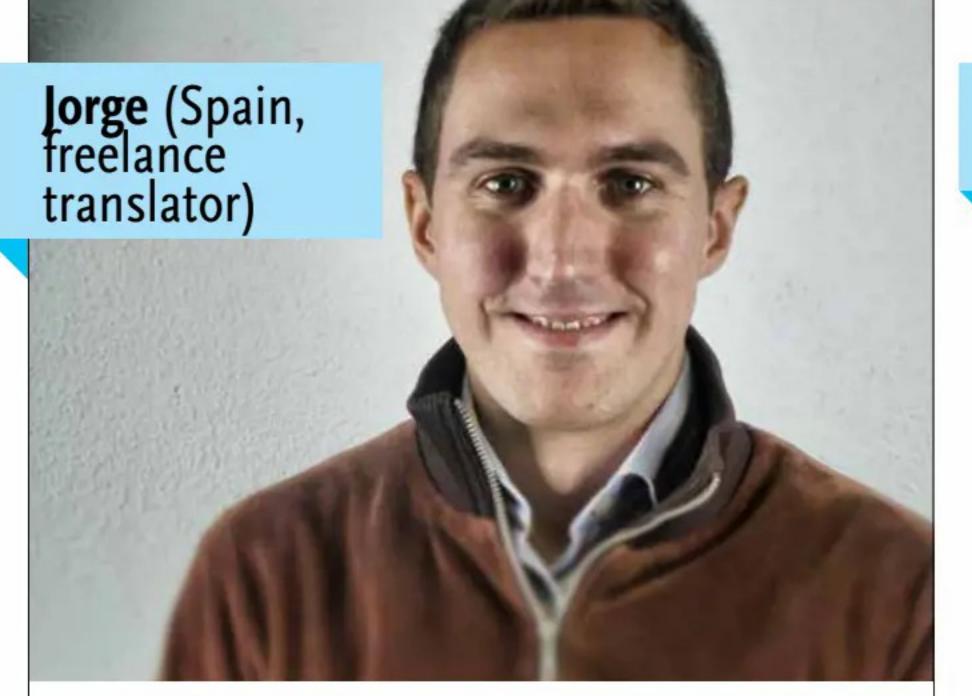

Megan (England, fashion sales adviser)

I think in a big city somewhere. I've always lived close to cities, and for me that's what I know and what I enjoy – a big city where there's so much you can do, so much you can see, different people you can go and see. I think living in a big city where everything's so close and everything so together is what I'd love. Of course, the **countryside** would be nice as well. One that's not too far away, but I would prefer to live in a big city.

I would like to live in Brazil because I think it's a marvellous country, it's very big, it's full of nature, it's full of nice people, way of life, it's very nice. The food, the fruits, and of course, Rio de Janeiro really attracts me. Especially their beaches, their music, and all the history involved.

Indre (Lithuania, photographer)

In the future I want to live in my hometown in Vilnius because it's very close to my friends, to my family. Er, I love travelling and I love living in different countries but just for short period of time and I still imagine the rest of my life spending in my hometown which is **amazing**.

Read or listen to the article once. In what ways are Tony and Jack similar? In what ways are they different?

3 Reading II

Read the article again. Then, write Tony or Jack next to each statement. He/she...

- 1. ...once had a job that paid £130,000 a year.
- 2. ...once had just £6 to buy food.
- 3. ...has a young child.
- 4. ...has a recipe on his/ her blog that consists of risotto with sausage.
- 5. ...once had a job that paid £27,000 a year.
- **6.** ...had an alcohol addiction.

TWO INSPIRING FOOD BLOGS!

Jack both experienced drastic changes.
They went from living fairly comfortable lives to having practically nothing. Now they're trying to help other people by showing them how they can eat well with very little money. [See our Recipe section for Jack's vegetarian burgers recipe.]

Tony

"If you have a passion for good food, but very little money, what do you eat? How do you organise your kitchen? Where do you shop? Well that's the situation I'm in, and that's what this site is about," explains Tony, otherwise known as the **Skint** Foodie. Tony's website and blog (www.theskintfoodie.com) is full of recipes and ideas on how to create delicious, **nutritional** food with very little money. Some of his recipes include spaghetti with broccoli, courgette and parmesan soup, and risotto with sausage. So, how does he do it? "Being a skint foodie is about how you plan your weekly **menu**. It's about investing time and effort into shopping. Above all, it's eating as well as you can on the **budget** you can **afford**," he adds. So, what had happened to Tony? He once had a family, a nice home

and a well-paid job that paid £130,000 a year, but lost it all because of an alcohol addiction. Now that he's back on his feet he wants to help others.

Jack

Jack is another food blogger. Like Tony, Jack (a girl) also lost her job, and found herself with practically no money and a young child to feed. After the initial shock, she became determined to cook as well as she could on the money she had. "I started to cook for myself and my three-year-old son on an extremely low budget because the f6 in change scraped from corners of drawers, coat pockets and my son's **money box** was all I had to work with," she explains. Later, she started writing about her experiences, and including recipes on her blog www.agirlcalledjack.com. Since then, the blog has become extremely popular and her life has **turned around**. But has it changed her? "People ask if I will still live on such a **tight budget** now that I have a **cookbook deal** and a job. Yes, I will. Because two years ago, I had a $f_{.27,000}$ -a-year job and a beautiful home, and I could never have imagined life falling apart as much as it

did – and I'll be damned if I

ever go through that again."

What an inspiration! 3

Talking about vour adventures!

We asked two people about some of the adventurous things they'd done in their lives.

The snowstorm

I once went hiking in the middle of winter and got caught up in a snowstorm. I was with a friend and we were on a 100-kilometre trip in the mountains. The idea was to (1) _____ for four days, covering about 25 kilometres a day. For the first couple of days, everything (2) _____ to be fine, but late in the evening of the third day, there was a really heavy snowstorm. The worst bit was the wind – it was so strong that it ripped our tent to pieces. So, at about three in the morning, we had to (3) _____ up everything and leave as quickly as we could. The problem was that it was really hard to see, and I was worried that we were going to (4) _____ down the side of the mountain. In the end, we just dug a hole in the snow and waited for the storm to die down. It was freezing and probably the worst night I've ever (5) _____ outdoors. As soon as it was light, we walked down the valley to a little village where we got a bus back home.

Parachuting

The most adventurous thing I've ever done? It was probably when I (6) _____ parachuting in the north of Norway. After a two-day preparation course, they (7)

us out for our first jump. There were three of
us in the back of the plane: Sandra (another
beginner), me and the parachute instructor.
The pilot (8) up to about 700
metres, and then the instructor opened a little
door at the side of the plane. Sandra was first
out, so she hooked up her parachute and then
(9) in the doorway. When the green
light came on, the instructor tapped her on the
shoulder and she jumped out. Now it was my
turn. By then, my heart was thumping really
hard. The red light was on again and the plane
was (10) round to the same spot
so I could jump out. Waiting was definitely the
worst part of it. Then, all of a sudden, I felt a tap
on my shoulder and I (11) There
was a cold rush of air, then a sudden jerk as
the parachute opened out. I remember floating
there, looking up and down and thinking how
small everything looked below and how quiet it
was, apart from the distant buzz of the plane.
But after a minute or so, the ground suddenly
(12) coming up towards me really
fast, so I got ready to land, and within a few
seconds I was down. I just lay there taking it
all in – not believing what I'd just done.
It was incredible.

15 TOP TIPS FOR INCREASING YOUR RANGE OF VOCABULARY!

Vocabulary is a key part of learning a new language. But what's the best way to pick up new words and remember them? Here are our top tips for building up your vocabulary.

Read & listen!

The best way to learn new words is to do it the natural way: by reading and listening to lots of English. And if you read and listen to things that you're really interested in, you'll improve your range of vocabulary without even realising it as you absorb language within interesting content.

2 Guess!

Interestingly, studies have shown that the more effort you put into working out what a word means, the easier it is to remember. So, instead of reaching for the dictionary, try to guess the meaning of any difficult words.

3 Focus!

There are thousands of words and expressions in English. But which ones do you need to learn? The answer is simple: highfrequency words. You can find high-frequency words in dialogues or conversations. Interestingly, a study by Oxford Online has found that the top 3,000 words in English make up 70% of the words we use.

4 Think context!

Make a note of any words you want to learn in sentences – never as individual words. When language is in context, you can see how the words fit together and how they're used. Also, try grouping words into categories or themes: food words, marketing terms... Studies have shown that we group words in our brains according to themes or topics. So, if you do this with the words you want to learn, they'll be easier to remember.

Once you've identified the words you want to learn, you'll find that some are easier to remember than others. Here are our top tips for learning the difficult ones.

3 Write them out!

Studies have shown that when we write out words, we form a visual representation of them in our heads, and this helps with memory.

6 Break them down!

Break down any long or complicated words. For example, by taking away the prefix (un) and the suffix (able) from the word uncomfortable, you're left with comfort, which is probably a word you already know.

7 Use them!

Use any new words as often as you can. Studies have shown that after you've used a new word three times, you'll never forget it.

8 Read & listen... again!

Keep reading and listening as much as possible. The more you read and listen the greater the possibility of finding your target word in different contexts, which will help you learn more about it.

9 See them!

Try to find a picture of the word you want to learn. Seeing an image of it is often a really quick and easy way to learn it.

Say them!

Repeating words out loud will help you remember them. Studies have shown that verbalising language helps you **internalise** it.

Ⅲ Compare them!

Find as many examples as

you can of your target word in sentences. Then, you'll see it in lots of different contexts. Simply type your target word into Google and write "+ in a sentence". Then, **print off** the results.

12 Record them!

Use a voice recorder to record yourself saying the target words in sentences. Then, use an MP3 player to listen to the sentences while you're waiting for a bus, relaxing on the sofa or walking along the street. Tests have shown that the more ways language enters your head (through sight, hearing, etc.) the easier it is to remember.

B Check them!

Use flashcards to review your progress. Write your target word in a sentence on one side of a flashcard and a definition on the other side. Then, test yourself during the day. If you've got a smartphone or tablet computer, you could use flashcard apps such as Anki or Quizlet.

14 Translate them!

Translate a sentence with the key word in it. Then, test yourself by covering up the English version and trying to translate the sentence from your language into English.

□ Get creative!

Use mnemonics for really difficult words. Mnemonics (pronounced "nemonics") are memory aids such as pictures, poems, rhymes and stories, that you can use to help you remember things. For example, a Spanish student was having difficulty with the word "hill" (a small mountain). So, he drew a picture of Jesus Gil (a famous

politician) on a hill (the surname "Gil" has a similar pronunciation to the word "hill"). After that, she never forgot the word. Try making connections between English words and words in your own language.

Have fun learning new words! 🗯

American actor Ryan O'Neal was in the news after attacking his own son. This was just another reminder that the stars and their families don't often get on. If you think you've ever had a bad argument with your family, then take a look at some of these celebrity family feuds. By Johnna Shwartz. (US English)

House Arrest

On February 2, Ryan O'Neal was arrested in his home for assaulting Griffin. Ryan said he was defending himself against Griffin, who was swinging a fireplace poker, and that he shot his gun in order to "scare Griffin away". Ryan's daughter, Tatum O'Neal, doubts that

the story is true. But don't worry, no one was hurt badly and Ryan was let out of jail on \$50,000 **bail**. Sadly, this is not the first time the O'Neals have had family problems. In 1983, they got in a

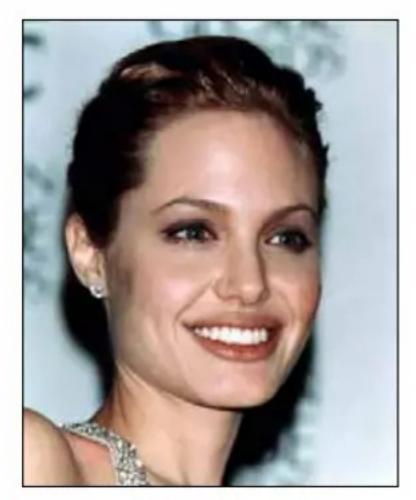

fight and Ryan knocked out two of Griffin's teeth. Talk about a **dysfunctional family**.

Daddy Issues

Griffin O'Neal isn't the only one who has problems with his father; Angelina Jolie hasn't spoken with her dad, Jon Voight,

since 2002. Although Angelina has never commented on her problems with her father, the fact that he once asked Angelina to get help for her "mental problems" probably has something to do with it. In 2006, Jon Voight said he wanted to meet his grandchildren and even mentioned them in an interview, sending wishes to Maddox and "Shakira." Too bad Angelina's daughter is named Zahara, not Shakira. I guess Jon was

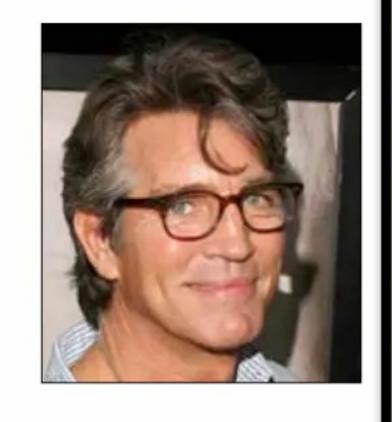

too busy memorizing lines for his next movie and didn't have the time to learn his own grandchild's name.

Sibling Rivalry

If you thought that was bad, Julia Roberts and her brother Eric haven't spoken in years. Eric used to be more famous than Julia, who started her **career** in one of Eric's movies.

But later, Julia became more famous and overshadowed Eric, causing a long-lasting rift between them. Eric and Julia's relationship turned from bad to worse when he publicly insulted her in

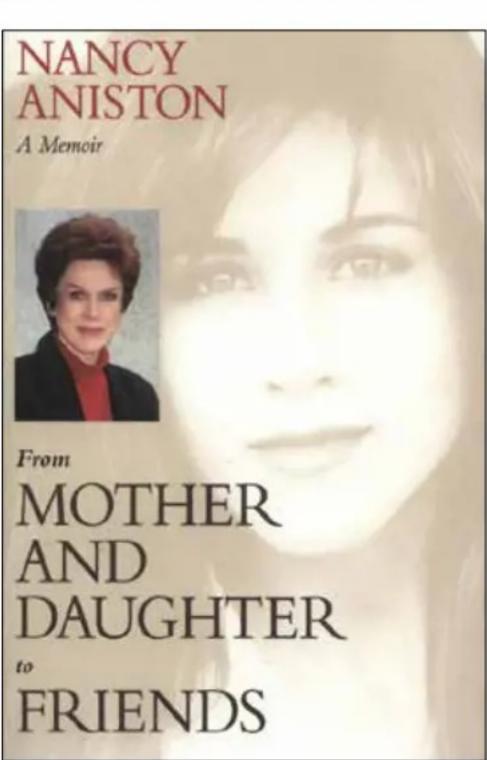

2002. In an interview Eric blamed Julia for not helping him out more, and said that her acting in Erin Brokovich was "not that

great". Later on when Julia had **twins**, she let Eric meet the children but told him that he was prohibited from speaking to the media about them. That's a pretty bad case of sibling rivalry.

The Silent Treatment

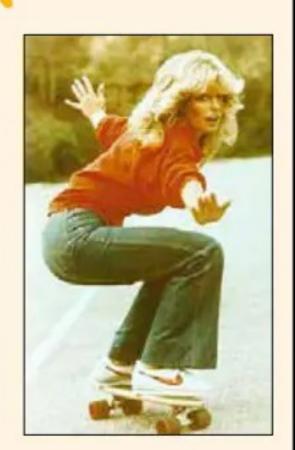

Jennifer Aniston stopped speaking with her mother not once, but twice. The first time was because Nancy (her mother) gave details about Jennifer's private life during a television interview. After a while, they began talking again. But then Nancy wrote a book about Jennifer and they stopped speaking for a second time. The argument was so bad that Jennifer didn't even invite Nancy to her marriage to Brad Pitt in 2000. I bet your family looks **pretty good** compared to these. 😂

Information Box

Ryan O'Neal was married to Joanna Moore. Their children are Tatum O'Neal and Griffin O'Neal. Ryan was also married to Leigh Taylor-Young, with whom he had son Patrick O'Neal. He also had a son, Redmond O'Neal, with Farrah Fawcett.

Jon Voight married actress Marcheline Bertrand, with whom he has two children, Angelina Jolie and James Haven. Jon and Marcheline separated soon after marrying. Angelina Jolie has three adopted children: Maddox, Pax and Zahara, and one biological child, Shiloh.

Walter Grady Roberts and Betty Lou Bredemus are the parents of Eric and Julia Roberts. Julia Roberts is married to cinematographer Danny Moder and has twin children Hazel Patricia and Phinnaeus Walter.

The actor John Aniston and Nancy Dow are the parents of Jennifer Aniston. Jennifer has two half-brothers, John Melick and Alex Aniston.

Airline mysteries!

ir travel is one of the safest forms of transport. But when things go wrong, they usually end in tragedy... or mystery, as these two cases clearly show.

Amelia Earhart (born on 24th July

1897) was the first female aviator to fly solo across the Atlantic Ocean. In 1937, she set herself a new **challenge**: to be the first person to **circumnavigate** the globe by flying around the **equator**. The round-the-world trip started on 1st June 1937 when Amelia and navigator Fred Noonan **set off** from Miami (USA). After several stops in South America, Africa and Asia, they arrived at Lae (in New Guinea) on 29th June 1937. At this stage, they'd completed about 35,000 km of the journey, with just 11,000 km to do across the Pacific. On 2nd July, Earhart and Noonan took off from Lae **en route** to Howland Island, a small strip of land just 2,000 metres long and about 4,000 kilometres away. A radio message was received during the **approach** to the island, but the signal was lost and the plane disappeared. An extensive **search** was carried out that lasted for several weeks, but nothing was ever found.

So, what had happened? There are several theories. Some say that the plane ran **out of fuel** and that Earhart and Noonan **ditched** at sea. Others claim that Amelia was a spy, and that she had been **shot down** and captured by Japanese forces; some believe she faked her

own death; and a few even claimed she was abducted by aliens. In 2013, researchers from the organisation TIGHAR claimed they'd discovered the remains of her plane off the coast of Nikumaroro Island. In past expeditions, they'd found some unusual artefacts there, including some sun cream from the 1930s and buttons from a flight jacket. Has the mystery been solved? We'll have to wait and see.

D B Cooper In 1971, an unidentified

man hijacked a

Boeing 727 and escaped by parachuting out of the back. The incident began on 24th November 1971 at Portland International Airport in Portland, Oregon (USA). A man who identified himself as "Dan Cooper" bought a one-way ticket to Seattle (Washington) – a 30-minute flight. Cooper boarded the aircraft and took his seat. Shortly after takeoff, he passed a note to a flight attendant. It said he had a bomb in his briefcase and that he was prepared to use it. His demands were simple: \$200,000, four parachutes, and a fuel truck to refuel the aircraft. The pilot was informed and he contacted Seattle-Tacoma Airport traffic control, who informed the local police and the FBI.

FBI agents got the money and handed it over, along with the parachutes. At approximately 7:40 pm, the plane took off again with just five people on board: the pilot, a co-pilot, a flight engineer, a flight attendant and Cooper. About half-an-

hour into the flight, and with everyone in the cockpit, Cooper lowered the rear airstair and parachuted out. The aircraft eventually landed at 10:15 pm at Reno Airport (in Nevada). Police and FBI agents surrounded the jet and searched it carefully, but Cooper was nowhere to be found. Over the years, police have followed hundreds of **leads**, but haven't been able to identify the mysterious Cooper. 😂

In what ways can music contribute to the economy? Make notes. Then, read or listen to the article once to compare your ideas.

Read the article again. Then, answer the questions.

- 1. How much do musicians, composers, songwriters and lyricists contribute to the economy?
- 2. How much does live music contribute?
- 3. By how much does music boost the UK's international brand?
- 4. What percentage of GDP does the arts and culture sector represent?
- 5. By how much does music tourism boost the UK economy a year?
- **6.** Who contributes more: overseas tourists or domestic tourists?

ow important is the music industry? According to a report by UK Music, it's worth a lot more to the British economy than previously thought.

UK Music found that musicians, composers, songwriters and lyricists contribute the most to the economy (£1.6bn) and also employ seven out of every 10 people who work in the sector. Live music contributes £662m, followed by recorded music (f.634m), music publishing (£402m), music representatives (£151m), and music producers and recording studios (£80m). Music businesses also generate £1.4bn every year from exports, while British musicians such as Emeli Sande, Adele and Ed Sheeran (whose albums dominated the 2012 sales charts) boost the UK's international brand by an estimated f.72m.

Another report by Arts Council England (ACE) had some interesting findings. They showed that the arts and culture sector (book publishing, sound recording, performing arts, etc.) accounts for 0.4% of GDP, with $f_{.5.9}$ billion worth of gross value added (GVA) to the UK economy in 2011. The results form part of an investigation by the Centre for Economics and Business (the CEBR). ACE chief executive Alan Davey said, "The contribution culture

makes to our quality of life as a society and as individuals, will always be our primary concern. But at a time when public finances are under such pressure, it's also right to examine all the benefits that investment in arts and culture can bring – and to consider how we can make the most effective use of that contribution."

Another report by VisitBrtiain focused on music tourism. It showed that this type of tourism boosts the UK's economy by $f_{2.2}$ bn a year. VisitBritain says nearly half of the average live music audience is made up of tourists, with visitors from abroad spending an average of f.910 while attending festivals, and £602 going to concerts. Domestic music tourists spend, on average, £396 while attending festivals, and £87 going to concerts. The report also says that overseas tourists account for 6% of music tourism visits, and 20% of music tourism spending. London attracts 28% of all music tourists in the UK, with 1.8 million people visiting the capital. "It's clear our music industry is doing a great job for the British economy, encouraging 6.5 million tourists to visit the country, generating $f_{2.2}$ billion last year," said Jo Dipple, the chief executive of UK Music, which helped prepare the report.

START EARLY, ACT FAST AND DIVERSIFY!

rom 2012 to 2013, Mexican magnate Carlos Slim was ranked the world's richest person, with Forbes listing his net worth at \$74 billion. Here are a few of his top tips for succeeding in the world of business.

Start early!

Right from an early age, Carlos was taught the basics of business by his father. And when he was only 12, Carlos bought shares in a Mexican bank. He went on to study civil engineering at the National Autonomous University of Mexico, and became a trader after graduating. In 1966, at the age of 26, he was already worth US\$40 million.

2 Choose your moment!

Carlos likes to **invest** as others are getting out of the market. "When there's a crisis, that's when we're interested in getting in," Carlos once said. In 1982, the Mexican economy slumped. But instead of playing it **safe**, Carlos invested in a **host of** companies in a wide variety of industries including telecommunications, financial services, mining and retail.

3 Act fast!

Carlos is famous for **buying up** companies on the cheap, then re-organising them, forming conglomerates and driving out the competition. "When we decide to do something, we do it quickly," he once said. In 1990, Carlos worked with France Télécom and Southwestern Bell to buy up the state-owned telephone company Telmex from the Mexican government. These days, the company, which is run by Carlos, operates the majority of Mexican landlines (over 90%). Another one of his companies, América Movil, is Latin America's largest mobile phone provider, serving more than 150 million customers in 11 countries, and operating almost 80% of all the mobile phones in Mexico. Both companies

are virtual **monopolies**, which wouldn't be permitted in countries such as the US under antitrust regulations.

4 Diversify!

With control of more than 200 companies, Carlos is the master of diversification. "It's hard to spend a day in Mexico and not put money in his pocket," a journalist for the Wall Street Journal

"It's not a question of arriving and putting in a whole new administration, but instead,

Watch your costs!

arriving and **compacting** things as much as possible, reducing management layers. We want as few management layers as possible, so that executives are very close to the operations," he once explained. On a personal level, Carlos is famously frugal. He has lived in the same six-bedroom house for the past 30 years, wears clothes from his own **modest** stores, doesn't own a single home outside Mexico, and drives himself to work.

wrote in a business **profile**. Carlos has

Carlos is very careful about his costs, and

he likes to **streamline** any new businesses.

Additionally, he also owns 1% of Citigroup,

and 16% of the shares in Saks Fifth Avenue.

The New York Times Company, and recently

Mexico and the USA. In 2008, he made

6 Have vision!

Although Carlos is a technophobe, he recognises the power of technology. "Technology is going to transform people's lives and society everywhere in the world. I spend most of my time studying new technologies. My main task is to understand what's going on and try to see where we can fit in," he once explained.

7 Be generous!

In May 2011, Carlos appeared on Forbes' list of the World's Biggest Givers after donating millions to his anti-poverty foundation. However, he doesn't believe in simply throwing money at problems. He once told *USA Today* that education and jobs can fight poverty better than charity. "It's not a question of giving money away, it's a question of going somewhere and doing

something and making sure the basic costs are paid... I'm channelling resources to try to solve problems as quickly as possible.... Our concept is more to accomplish and solve things, rather than giving – that is, not going around like Santa Claus. Poverty isn't solved with donations."

It's nice to know he's doing his bit! 🗯

Along Came Polly is a 2004 American romantic comedy that's directed by John Hamburg. It stars Ben Stiller and Jennifer Aniston. While on his honeymoon, Reuben Feffer (Ben Stiller) discovers that his wife is having an affair. - **P:** No point. [They're both stabbing pillows.] Stupid!
- R: I mean, what am I, running

- a bed and breakfast?
- **P:** Not anymore.
- R: Do you know how many minutes a day I spend throwing pillows on and off the bed?
- P: How many?
- **R:** Four minutes in the morning and four minutes at night. That's eight minutes of my life, I figure that's 56 minutes a week. That's nearly two days of my life a year I spend putting pillows on and off this stupid bed.
- P: Whoa, whoa, you hit mattress!
- **R:** Oh, yeah.

The 8 paragraph titles in the article refer to psychological defence mechanisms that we use. What do you think they involve? Make notes. Then, read the article once to compare your ideas.

Reading I

Read the article again. Then, write one of the paragraph titles next to each statement.

- 1. Someone starts crying because they don't get what they want.
- 2. A buys B an enormous bunch of flowers and a diamond ring after B accuses A of not loving her.
- **3.** Someone can't keep a straight face as they're being told off.
- 4. Your boss tells you off at work for being careless, when he's the one who's been making the mistakes.
- **5.** Someone shouts at you even though you haven't done anything wrong.
- **6.** Someone is drinking excessively but won't recognise they've got a problem.

hen we're angry, frightened, nervous or stressed, we often try to protect ourselves from these unpleasant feelings by acting in "unusual" ways. Here are eight typical psychological defence mechanisms we use, often without even realising it.

Laughter

Definition: laughing during a stressful situation in order to reduce the tension.

Example: giggling uncontrollably

during a serious meeting.

Denial

Definition: refusing to accept reality or facts. A typical expression with this word is, "He's in denial about his problem."

Example: someone with a serious gambling problem who says they win more than they lose.

Projection

Definition: attributing your own thoughts, feelings or motives to another person. Example: A accuses B of stealing, when A is the one who's been taking things. Or, A is in a relationship with B and accuses B of being unfaithful. However, it's really A who's been unfaithful.

Regression

Definition: behaving immaturely.

Example: someone who slams a door, cries and shouts uncontrollably when they don't get what they want.

Rationalisation

Definition: trying to justify an action.

Example: not telling the cashier when he/she gives you the wrong change, then trying to convince yourself that it's all right because it's a big shop and they can afford to lose the money.

Displacement

Definition: taking your anger out on someone who isn't the true cause of your rage. In some cases, the anger can even come from mistreatment as a child. Example: shouting at a subordinate at work for no apparent reason.

Repression

Definition: keeping distressing thoughts and feelings buried in the subconscious.

Example: blocking out the memory of a violent act that someone witnessed as a child.

Compensation

Definition: exaggerating a certain type of behaviour in an attempt to prove you

aren't what other people say you are.

Example: someone who buys a large car to compensate for feelings of inferiority; or someone who spends a lot of money to prove that he/she is really generous.

Do you recognise any of these? •

2 Reading I

You're going to read an article about sinkholes – holes that suddenly appear in the ground. What do you think causes them? Make notes. Then, read or listen to the article once to compare your ideas.

3 Reading II

Read the article again. Then, answer the questions.

- 1. How big was the sinkhole that appeared on 15th February 2014?
- 2. What was Phoebe woken up by in July 2013?
- 3. What did Ben think was happening in April 2010?
- 4. Where do sinkholes occur?
- **5.** What are some of the signs that a sinkhole might be forming?
- **6.** What did Mr Randazzo compare filling cracks in the ground to?

WATCH OUT FOR THE SINKHOLES!

sinkhole is a hole that suddenly appears in the ground. They can be a few metres deep or large enough to swallow whole buildings. Over the years, there have been several incidents.

On 15th February 2014, 17 homes were evacuated in Hemel Hempstead (England) after a sinkhole 10 metres across and 6 metres deep opened up in a residential street.

On 12th February 2014, a 4.5 metre sinkhole opened up on the M2 in Kent, causing the road to be closed between junctions 5 and 6.

On 3rd February 2014, a 9-metre **crater** swallowed a car in High Wycombe, after appearing in the driveway of Phil and Liz Conran's house in High Wycombe (England).

In July 2013, Pheobe Garlick from Buckland St Mary (in England) was woken up by the sound of her horses **neighing** in the field. Rushing down, she found one of the animals in a 2-metre sinkhole. The horse was eventually rescued.

In April 2010, Ben Luck was at home in Grays (Essex, England) when there was a **rumbling** sound "like an earthquake". "I ran out to look and there, just a couple of steps away, there was this monstrous hole over seven metres deep," he said.

One of the most devastating sinkholes in recent times occurred in Guatemala

City in 2010. An area approximately 20 metres wide and 30 metres deep collapsed, swallowing a three-storey factory and killing 15 people.

So, what causes sinkholes? Sinkholes mainly appear in "karst terrain". This is an area of land with **soluble bedrock** (such as limestone or gypsum), which can be dissolved by water. About 10% of the earth is made up of karst terrain. Over time, the rock is gradually worn down. As this happens, the **soil** on top becomes weaker. Eventually, it can't support its own weight and collapses.

A sudden collapse can be caused in two ways. 1. During long periods of drought, groundwater levels will fall, meaning cavities that were once supported by the water they were filled with may become weaker. 2. On the other hand, a lot of rain after a heavy downpour can add dramatically to the weight of the surface layer of soil, making it too heavy for the cave beneath to support.

So, what can we do about sinkholes? Not much, unfortunately, but you can watch out for them. People in a sinkhole zone should look around at the land and buildings. Signs that a sinkhole may be about to appear include sagging trees, doors that no longer close properly and rainwater collecting in unlikely places. Some developing sinkholes can be filled in. Anthony Randazzo, a former University of

Florida professor, runs a company that injects grout to fill cracks that develop underground. "It's like a dentist filling a cavity," he explained to USA Today.

You might want to find out whether you're in an area with sinkholes. O

CLOWNS – IT'S NO LAUGHING MATTER!

Answers on page 48

Pre-reading

Use the following words (or any others) to describe what a clown looks like and what they do: big shoes, painted face, red nose, red hair...

Reading I

You're going to read an article on the decline in popularity of clowns. Why do you think this is happening? Make notes. Then, read or listen to the article once to compare your ideas.

Reading II

Read the article again. Then, answer the questions.

- 1. What does CI stand for?
- 2. By how much did numbers at the World Clown Association fall by between 2004 and 2014?
- 3. What does "coulrophobia" mean?
- 4. Why does Blue Brattle mention Santa?
- 5. How old are the children that clowns entertain at parties these days?
- **6.** Why are more and more choirs providing entertainment in shopping malls?

(CI), a professional clown organisation, has seen its membership **fall** from almost 1,000 in the 1980s to little over 100 in recent years. And numbers at the World Clown Association have dropped from 3,500 in 2004 to 2,500 in 2014.

To make matters worse, few new clowns are coming into the profession. "Most clowns get into it because their mum or dad is involved," Blue Brattle, the former chairman of CI, explained in an interview with The Daily Telegraph. "There are still clowns coming through, but not in the numbers they once were," he added.

So, what's the reason for this decline in popularity? Many **blame** the **media**. "There's a very negative view from Hollywood, with films like It, and characters like Krusty the Clown from the Simpsons. These clowns are so negative. They don't look at the positive," Brattle added.

Others say that it's down to an increase in clown phobia (otherwise known as "coulrophobia"), with clowns having now become an object of fear. This has been **fuelled** by cases of reallife "killer clowns", such as the **serial murderer**

worked as a clown in his spare time. He once admitted that he liked dressing up as a clown because "a clown can get away with murder."

Others are more **sceptical**. "Ten years ago, I'd never heard of clown phobia. It's rubbish," Brattle said. "Children might be nervous, but they get scared of Santas and mascots too," he added.

Whatever the reason, it's clear that there's less work for clowns now. "It used to be **cool** to have a clown at a party, but now it is all DJs, paintball and themed-parties," another clown explained. "A few years ago, I would have provided entertainment at 10-, 11- and 12-year-olds' parties, but now, when I do get **bookings**, it's for 3-, 4or 5-year-olds. It's the way of the world. Children are growing up quicker," he added.

The depressed state of the economy isn't helping things either. These days, fewer **shopping malls** hire clowns as a form of entertainment. Instead, they use community **choirs**, which are often cheaper or even free.

It seems that beneath the smiles, there isn't much to laugh about! 📀

a television programme or film about real events or about a particular subject stuff n

a general word that means "things". In this case, it's referring to "documentaries" in general

to upload vb

to put something from your computer (or another device) onto a website a nerd n

an insulting/offensive term to refer to someone (often a young person) who is very interested in computers or science and who doesn't wear fashionable clothes challenging adj

something that is "challenging" is difficult to understand and it makes you think a drama n

a play, film or TV programme about a serious subject, and with no comedy in it what's-his-name exp

this expression is used to refer to a man or boy when you can't remember his name

Top tip: how to listen

The most important thing to remember when listening to a conversation is that you won't understand every word. So, you should only listen out for the key words - the most important words in the conversation: the nouns, verbs, adjectives, etc. Then, you can use your intuition to fill in the gaps – just as you do in your own language. Knowing the context and topic of the conversation will help with this.

Objective To teach you some slang words and expressions.

- **P:** [to his friend] See! She said she liked my hat.

- **B:** No, she didn't. [standing up] Come on, we're going home.
- P: Actually, I'm feeling a bit dodgy. Where's the loo?
- **B:** Just over there on the left. [He stumbles across the bar.] No, the other left. That's it!
- P: Oh, no. I think I'm going to puke! [He throws up.]
- G: Gross!
- **P:** [to the girl] May I have the pleasure of the next dance?
- **G:** You're revolting!
- L: Look at this bloody mess.
- P: Don't worry! I'll clean it up.
- L: No, you won't. Get out! [The landlord throws him out of the pub.] [to Bob] Is he with you?
- **B:** No, no. I've never seen him before.

- **6.** Where was WPC Woolly when she banged her head?
- 7. Why did the dog bite the police trainer in the mouth?

Ridiculous mury ciains by the police! olice officers often find themselves in

dangerous situations: face-to-face with an armed robber, a knife-wielding drunk or a crazed killer. And if they're ever injured on duty, they're entitled to compensation. But some police claims for personal injury are completely ridiculous, as these examples clearly show.

PC Whinge claimed £600 after he injured his back while reaching across a desk to switch on a computer.

WPC McDeftly **sued** for £500,000 after claiming she'd developed a fear of **sirens** following a **riot**training exercise.

PC Sore won $f_{108,000}$ after he was injured by handcuffs on a safety course.

PC Jones injured his foot after being "run over by an out-of-control office chair". He put in a claim for $f_{.500}$.

PC Slipston suffered "stinging eyes" after accidentally **squirting** hand gel into his face. He was awarded £750.

WPC Wiggins put in a claim for £500 after a heavy-duty stapler fell from a desk onto her ankle, causing minor damage.

PC Flopston was awarded $f_{10,600}$ after receiving burns to the right knee after tripping over a cable.

WPC Brakely sued the force for £400,000 after hurting her back lifting boxes of stationery.

WPC Woolly sued for £900 after banging her head on a hand drier in the toilets after bending down to "collect paperwork from the floor".

PC Sturdy was left with **torn ligaments** in his foot during flinch training (an exercise to teach officers not to flinch during a confrontation) after the instructor accidentally **stamped** on his foot.

WPC Carryon sued the force for £700 after she made three cups of tea and dropped them as she tried to carry them all at once "without a tray".

A police dog trainer sued the force for £900 after he was bitten on the mouth by a police dog that jumped at him in order to "retrieve a ball".

You'd expect a bit more from the men and women who have chosen to serve us! 😂

Think about it Have you ever experienced road rage? What happened? Have you tried to open a package lately? How easy or hard was it to open? How did you open it? Have you ever lost any money in a vending machine? What did you do about it? Have you ever been upset over a sporting defeat? Which one? What did you do?

This activity will help prepare you for English exams such as CAE, IELTS and TOEFL.

6 different types of anger!

Vending machine rage time you got angry? Here are six types of rage that you might have experienced.

Road rage

Definition: violent aggressive behaviour while driving. Example: In 2010, 27-year-old Dwayne Derks was arrested in Little Rock (Arkansas) after shooting at another driver with a **crossbow**. Derks had chased the driver for over 10 kilometres after being cut up in heavy traffic. The arrow went through the rear window and fortunately missed the driver.

Car park rage

Definition: extreme anger caused by the stress of looking for a parking space. Example: In 2011, Don Sharp was arrested after **stabbing** a driver in a fight over a parking space. The argument escalated after Colin Jackson (32) threatened Sharp with a firearm. Following that, Sharp (61), grabbed a knife and stabbed Jackson.

Wrap rage

Definition: extreme anger caused by an inability to open a package. Example: In 2009, the ambulance services were called out to deal with a 32-year-old man who had **severed an artery** with a large knife while he was trying to remove a light bulb from its molded plastic packaging.

Definition: extreme anger directed at a vending machine.

Example: In 2004, Colin Snoop was arrested after smashing up a vending machine with a baseball bat. "I'd put in the money for a bar of chocolate but it just wouldn't drop, and no amount of shaking would make it come down. I hadn't eaten all day so I was really hungry," he told reporters as he was being led away by police.

Sports rage

caused while watching a sports game. Example: On 15th June 2011, Canadian sports fans went on the rampage in downtown Vancouver after the Vancouver Canucks lost to the Boston Bruins during the 2011 Stanley Cup finals. In total, 140 people were injured, four people were stabbed, nine police officers were hurt and 101 people were arrested, with 16 further arrests following the event.

Definition: extreme anger

Air rage

Definition: violent behaviour on a plane.

Example: In January 2014, Jenny Lauren (the niece of designer Ralph Lauren) was arrested in a drunken air rage incident on a plane on route to New York City from Barcelona (Spain). As a result of the incident, the plane was forced to

divert to Ireland, eventually landing in Shannon Airport. Lauren, 41, was arrested and later appeared in court charged with being drunk and abusive on a plane. During the incident, Lauren apparently told a female cabin crew member that she was "ugly"; when the pilot intervened, Lauren **turned on** him too. Jenny Lauren denies the charges.

Stay calm... if you can! 😂

WORK CONTRACTS TO WATCH OUT FOR!

hen was the last time you had to read over a work contract? Most consist of basic information on your timetable, salary, holiday entitlement, sickness pay and other benefits. However, not all contracts are that straightforward.

In 2013, a copy of a contract for employees at Amy's Baking Company was **leaked** to the website RadarOnline.com. Amy's Baking Company is an Italian pizzeria and bakery in Scottsdale, Arizona (USA). The owners of the restaurant, Samy and Amy Bouzaglo, once appeared on an episode of Gordon Ramsay's Kitchen **Nightmares***, and became famous after a series of **confrontations** with the British chef. The four-page contract had a number of "interesting" clauses, including a \$250 penalty for not **showing up** to work on holidays and weekends, a rule against "unnecessary talking", and a threat to deduct a charge from salary payments for breaking things or burning food.

Other conditions in the contract included a ban on mobile phones while working, immediate dismissal for any type of "attitude", and "the legal right... to inspect any and all packages that you may have brought with you". There were also non-compete clauses, such as the one saying that employees can't work for any competitor within a 70-kilometre radius of the restaurant one year after leaving the company.

But that's nothing compared to the contract for the reality TV show **The Voice****. Details of the 32-page

contract, which were also leaked to the press, say that broadcasting company **NBC** can **sue** contestants for \$1 million for revealing details of the show. Potential contestants must also agree to being shown in a "disparaging, defamatory and embarrassing" light.

These days, **zero-hours contracts** are becoming more and more popular. Zero-hours contracts (ZHC) are literally contracts with no guarantee of how many hours you'll work. A typical clause in the contract might read, "The company is under no obligation to provide work to you at any time, and you are under no obligation to accept any work offered by the company at any time." This means your salary will depend on when you work and how many hours you do, if you do any work at all.

Zero-hours contracts are common in the restaurant and building industries. There are clear advantages to employers: when they need extra staff, they can have them without having to hire them officially. And when there isn't so much work, they don't have to keep paying a salary. Obviously, zero-hours contracts aren't very popular with employees. "Zero-hours contracts form a **one-way street**, whereby employers **bear no risk**, avoiding sickness and holiday pay and overtime," said Len McCluskey, the General Secretary of the trade union UNITE. The union estimates up to 5.5 million people in the UK are on zero-hours contracts.

Before starting a new job, make sure you read over the contract carefully. •

REALITY TV SHOWS

*Gordon Ramsay's Kitchen Nightmares A reality TV show starring British chef Gordon Ramsay. Gordon visits failing restaurants and tries to help sort out the problems.

**The Voice

A reality TV show in which contestants sing a song in front of a live audience. If they do well, they're chosen to participate in a singing competition in teams with famous singers.

B: I don't know. Why are Saturday and Sunday strong days?

A: Because they aren't weekdays!

A really bad day

Day joke

Frank is in a bar, staring at his drink. He's been like that for about half an hour when this really big guy walks in, grabs
Frank's glass, downs the contents in one, then slams the empty glass down on the bar. At first, Frank is too shocked to say anything, but after a couple of seconds, he breaks down in tears.
Surprised, the big guy says, "Oh, come on, I was

buy you a nother drink. I can't stan<d to see a grown-man cry." "No, don't worry," says Frank. "It isn't you. It's just that today has been the worst of my life. This morning, I slept through the alarm clock and got to work about an hour late so my boss **fired** me. Then, when I went to pick **up** my car, I found out that it'd been towed away. So, I got a **cab** home, but when I arrived, I found my wife in the arms of Jim, my neighbour and supposed 'best friend'. So, I left home and came to this bar, and just as I was about to put an end to it all, you showed up and drank my **poison**."

only joking. Here, I'll
