Welcome

After a rather mild autumn, the winter chill seems to finally be in the air, and I have to say that I am a little excited about it! A cold snap means piling on the handmade scarves, socks, hats and sweaters for a crisp, icy walk and what crocheter doesn't relish the chance to utilise their handiwork? If the sudden drop in temperature has caught you out, don't worry, this month we have a great selection of warming projects. Our simple yet stunning cover project is a stylish turban style headband, which is a chic alternative to the bobble hat but which still keeps your ears toasty.

This issue, Tracey Todhunter guides us through her tips for upcycling and mending your well-loved clothes on page 84. In an era of disposability, the idea of "slow" fashion – making your own clothes and repairing items that have seen better days – is a great way to feel like you are helping the environment.

We're also excited to introduce a new columnist, the lovely Rachel Atkinson. Each month, Rachel will be inviting us into her vintage pattern collection and creating gorgeous designs inspired by their pages. For her first column, she has designed a glorious chevron scarf, which is at the top of my queue of desirable makes for winter walk woollies.

Finally, don't miss part two of Annelies Baes's lovely mystery quilt on page 24 and get addicted to pom-pom making with our fun free gift. As you will see if you turn to page 36, in addition to preparing for the cold weather, I have also been busy feeding my own pom addiction! There are definitely worse ways to spend the winter than feathering your nest with some pretty pom-poms!

Getting hooked

Beginner crocheter Caroline Bawn continues her crochet journey...

↔ “I have been crocheting for just over a year now, and I LOVE it! In the past year with *Inside Crochet*, I have learned the basics, gradually progressed and increased my

confidence, made several 2* projects, and even a 3* one! I have enjoyed every single stitch, even the mistakes because they have taught me something. I find I can now ‘read’ the stitches and anticipate what comes next.

“Now I want to build on my skills and learn a new stitch each month. I have been inspired by projects on Instagram and Pinterest. I have lots of part used balls of gorgeous yarns from projects last year and I’m hoping to use them up in a graduated, sea colours design.”

Read more at www.insidecrochet.co.uk and visit Caroline’s shop at www.gorgeouslyarns.co.uk.

[CAREERS]

CROCHET ENTREPRENEURS

Laura Eccleston chats about her patterns, and a different way to make an income from design.

www.happyberry.co.uk

Laura Eccleston is the woman behind popular crochet brand HappyBerry, a website that’s packed with free patterns, video tutorials, apps and useful info. “I am a crochet designer, and have been sharing my patterns since 2010,” Laura explains. “I mainly teach others how to crochet my designs via my YouTube channel where I now have over 200,000 subscribers.”

Laura lives in the Midlands with her husband and daughter, and originally trained in graphic design before working in web design and development. “I’ve always had a keen interest in the internet and even computer programming,” she says. “It helped me with launching my own website and social media channels when I started HappyBerry Crochet.”

Laura learned to crochet as a child, but didn’t fall in love with it until she was pregnant with her daughter and looking for a baby sun hat. “I was always hopeless at knitting, but as I loved yarn I turned to crochet again and planned to improve my skills with the help of the internet,” she smiles. This interest quickly moved into design. “I was following other people’s patterns, but many of the ones I found were somewhat old-fashioned in style, especially in local bookshops,” says Laura. “I also used to get frustrated with how they were written. So I set out on a mission to design more contemporary crochet patterns, which were also easier to understand, mainly for myself, but after sharing a few of them I found other crocheters seemed to enjoy them too and things led from there.”

Laura originally sold her patterns through her website, but changes to EU VAT law last year made this a more difficult way to earn an income. “When the new VAT laws came in last January I was faced with taking down my patterns for sale on my own website or face paying VAT to every European country even if I just sold something for a pound, so Patreon became my saviour,” she explains. Patreon is a website that enables fans of an artist or creator to sponsor them directly, pledging a small amount of money every month, or for every piece of work released. “I was one of the first creators to use Patreon when it launched, mainly because I loved the concept,” says Laura. “It was different from crowdfunding as people could pledge or sponsor you as much or as little as they liked with no commitments. I’ve been using it for a while now and it’s been fairly successful as it has allowed me to keep releasing weekly crochet tutorials and saved me at times when I’ve needed some new equipment.” HappyBerry “patreons” can receive early access to Laura’s tutorials as well as exclusive patterns.

Laura has lots of plans for 2016, the most important of which is a new website for HappyBerry. “People will be able to log in and view the free patterns with the added option of downloading a PDF and view any accompanying video tutorials all on one page. I’m also looking forward to releasing more beginner video tutorials and getting more of my video patterns written down and added to the website.”

WORDS CLAIRE MONTGOMERIE

Sublime Phoebe

Phoebe is a beauty of a yarn, with a lightweight, soft and luxurious handle and attractive squishiness created by the airy, chainette construction. The knitted composition makes a perfectly round, plump thread, lending a pretty texture to the stitches. Available in sweet yet refined shades, it is gorgeous for crocheting classic accessories and garments that will last.

£5.99 from www.deramores.com

Stylecraft Special XL

An exciting addition to the Stylecraft Special range, XL is soft and quick to hook with a great stitch definition. It is strong and dense, which can create quite a stiff drape, but means it works well for sculptural, hardwearing projects. It comes in a limited range of seven shades, which we hope will eventually be extended.

100% acrylic • 200g/136m/148yds
£5.29 from www.sconch.com

Conway and Bliss Elektra

We love the new range of yarns from Conway and Bliss; Elektra is a full, bouncy, hairy yarn with more than a hint of punk in its mohair-like, lightweight consistency and clashing colours. It hooks up easily despite its hairiness, and with its chunky weight, great yardage and surprising colour changes, it is quick, fun and economical to work with.

44% wool/44% acrylic/12% polyamide
50g/130m/142yds
£4.95 from www.blacksheepwools.com

Debbie Bliss Lara

Lara is an incredibly soft, spongy yarn to crochet with. The thread is made up of a super bulky and a contrasting fine yarn spun at different tensions to create bumps and gentle loops, which makes for a yarn with a distinctly pleasing "wiggle". The resulting bouclé fabric is attractively uneven, perfect for hiding any mistakes!

58% wool/42% alpaca • 100g/60m/65yds
£12.95 from www.loveknitting.com

Rowan Big Wool Silk

Ever-popular Rowan staple Big Wool has been given a luxurious makeover, with the addition of some silk to provide a pretty sheen. The new fibre addition makes the yarn feel finer in weight than the original, but it still works up beautifully and quickly. Available in chic, understated autumnal shades, the yarn is great for sophisticated cold weather accessories.

I crocheted my boyfriend a afghan blanket as a welcome home from his first deployment away from me. We celebrated 31 years of marriage in 2015. He's my rock. Maybe my crochet helped to win him over!

Maria Nobile: *A large bauble stitch hearts-in-line afghan and a sweater.*

Shalene McClure: *I made a pouffe for my dog Dover. He loves it.*

Dawn Pashley: *I made a red beanie hat for my partner. It was supposed to be for him to wear at football (Rotherham United), but I later added red fur pom-poms and I wear it now, oops!*

Sue Heap: *I have lovingly crocheted him two hats. The first was in beautiful 4ply colours and a complicated pattern. The second a simple, acrylic beanie. Guess which one he wears? Humph.*

Jane Tilbrook: *I made a chunky blanket for my daughter to take away with her to university.*

Flora Klumpler: *I crocheted a teeny tiny lobster for my husband, because we used to watch waaaay too much Friends... Also a gorgeous hexi blanket, which I immediately claimed as my own. He loves me really!*

[CROCHET TOYS]

Down at the farm

Peter Pan yarns has released an adorable collection of crocheted toy designs, ideal for whiling away long Sunday afternoons or spreading out on the living room floor after school. Worked in Peter Pan DK, a great-value nylon/acrylic blend, the toys are sure to be well loved and passed down between siblings and cousins.

The book includes a fun farmhouse, with animals, farmer and tractor, as well as a magical mushroom home with cute gnomes. There are also two fun boardgames to make: noughts and crosses (actually cats and mice!) and snakes and ladders. There's even a pattern for a crocheted die to roll!

Victoria Haynes

www.theowlandtheaccordion.com

Tell us about yourself...

I live on the south coast of the UK, with my husband and two children.

How long have you been blogging?

I started in 2011, under a different blog name, then moved over to The Owl and the Accordion a year or so later.

What inspired you to start blogging?

I got started with blogging around the same time I learned to crochet – I was using the internet to look for tips and patterns, and kept stumbling across these blogs full of different projects. I thought, “I could do that!” and just started taking pictures and writing about what I was making

Do you use any other social media?

All of them! I use Facebook and Twitter

“I blog about interiors as well as crafts, so my feed is made up of yarn, ceramics and plants”

to share my blog posts, and I'm a complete Instagram addict – I blog about interiors as well as crafts, so my feed at the moment is made up largely of yarn, ceramics and plants! I love Pinterest as well – it's so helpful for keeping track of stitch tutorials, patterns and ideas.

How did you learn to crochet?

I'd been trying my whole life to knit, and just couldn't get the hang of it – then when I was 25 and I'd just had my son, I decided to try crochet instead. After a few false starts, my very patient Mum taught me the basics, and then I added to that with the help of *The Encyclopedia of Crochet*

Techniques by Jan Eaton – this book is by far the best for new crocheters.

How did you start designing?

The first thing I made without a pattern was a stuffed owl for my son. At the time I thought it was amazing, but when I look at it now, all I can see are mistakes! There were patterns online, but I was still new to crochet and couldn't make sense of amigurumi back then, so I sort of just cobbled together my own design. After that I made garlands, blankets, cushion covers and hats, and things just went from there.

Where do you find inspiration?

Blogs, magazines, nature and the outside world, pattern and print, interiors... everywhere really. At the

moment I'm exploring tapestry crochet, so I'm a bit obsessed with Aztec designs and geometric shapes!

What item in your studio/workspace couldn't you live without?

It would have to be either my pom-pom makers, or my collection of scissors. I'm a bit of a scissors geek, and have a pair for almost every job.

What is your current project?

I've got a few on the go: I'm developing some patterns for the blog, and am designing a couple of “crochet along” type projects. I'm also working on some bits for magazines, and trying to set up an Etsy shop – and I've got a blanket that I started six months ago that could really do with some attention!

Who are your favourite other bloggers, designers or authors?

Kat Goldin is my absolute crochet hero; her patterns are so beautiful, and I loved her *Crochet At Play* book – it's ideal for anyone with children. I also like Beci Orpin, Pip Lincolne and Meredith Crawford from One Sheepish Girl.

Granny Squares & Shapes

Susan Pinner
GMC (www.thegmcgroup.com),
£14.99 • UK terminology

→ We were big fans of Susan Pinner's first book, *Granny Squares*, so we were thrilled to see that she's brought her pretty, vintage-feel style to another collection of crochet patterns inspired by the simple granny motif. This time, though, she's branched out from just squares to also include diamonds, circles, hexagons and more.

The book begins with an introduction to hooks, yarn and crochet techniques, plus basic granny shapes and a guide to colour inspiration. We then get to the real heart of the book: 20 beautiful patterns using the techniques and motifs. These range from projects for the home, such as a decorative stool cover, beanie bowl or daisy rug, to accessories such as a pinwheel shawl or cotton slippers and even garments such as the multi-coloured cami top (above), made of simple diamond motifs. Our favourite is the stunning boho-feel daisy top, though we do think the pretty heart bunting would be perfect hooked up in time for Valentine's Day. Handy "Granny's tip" boxes appear throughout the book with useful pointers when working the designs.

WE ARE ALSO READING...

Pixel Crochet

Hannah Meur
Search Press, £11.99 • UK terminology

We just love the clever idea behind this "supercool" collection of patterns. Designer Hannah Meur uses simple one-colour granny squares to build up pixellated designs inspired by everything from 8-bit computer games to hipster moustaches! There are 101 "pixel" designs, including punctuation, music, flowers and flags, and they are shown made up into a variety of projects, from a rainbow heart cushion to a "Game Over" blanket. Turn to page 78 for the ingenious Play Tent design.

Crochet Amigurumi Dolls

María Alejandra Montero
Tuva Publishing, £14.95 • UK terminology

This collection of 15 doll patterns is a great exploration of amigurumi. Fun photography shows off the clever designs, from fancy dress dolls to an astronaut, a vet in scrubs (plus puppy!) and a selection of designs with removable clothing. The patterns are written in a "code" that could take some getting used to, but everything is fully explained and the symbols are intuitive. Detailed step-by-step photographs of the assembly of each of the dolls is also very useful.

Pauline Turner
Dover, £18.99 • US terminology

Pauline Turner (www.crochet.co.uk) is the founder of the International Diploma in Crochet and hugely knowledgeable about our craft and its history. This fascinating book (a reprint) covers the history of crochet and its origins, before moving on to lace techniques including filet crochet, Irish crochet, Solomon's knots and more. Though there are several beautiful projects included (plus some great troubleshooting tips), we'd consider this more of a reference text than a pattern book – but one that will be of interest to anyone engaged with our craft.

CONFESSIONS OF A PATTERN COLLECTOR

THIS MONTH WE INTRODUCE YOU TO DESIGNER RACHEL ATKINSON, WHO SHARES HER LOVE OF VINTAGE CROCHET PATTERNS WITH US.

Y ou could say I have always been a collector. What started with a pencil collection accumulated during many seaside holidays, later became a larger and more dust-attractive collection of vintage tins. Then there were the handbags which sparked an interest in mid-century ceramics and their more garish cousin, plastics. Most of these collections have now gone – though I couldn't help but keep hold of a few of the more choice items – but running alongside all of these collectables, and always a constant feature in my life, was the paper ephemera: books, magazines, postcards, newspaper clippings, concert tickets... in fact pretty much any type of paper that would pass you by in daily life.

When, just over nine years ago now, I picked up my hook and needles again, I couldn't wait to get my hands on Mum's small but beautifully formed library of *Vogue Knitting* magazines, dating back to the early 1960's. Whilst my days of dressing in 1960's psychedelia have (thankfully) passed, the vintage looks within the pages all sparked the same excitement I had when immersed in my fashion degree at Central Saint Martins, surrounded by inspiration and constantly researching different

looks. The pages of the magazines were overflowing with a richness of colour, stitch patterns and textures, interesting silhouettes, details and wonderful styling – even the adverts were inspiring!

They sparked something in me and I needed to learn more about my newly-revived crafting and the wealth of knowledge there for the taking. I started picking up vintage patterns at charity shops, car boot sales and second-hand bookshops, and friends and relatives would pass their own pattern collections on to me. Each bundle contained treasure as well as clues as to which patterns were tried, tested and perennial favourites; biro tally marks on the pages, sticky notes and dog-eared edges all indicating the project had made its way off the hook.

The collection has steadily grown and is in need of a good archivist to work some magic, but I never tire of leafing through the pamphlets and booklets. One of my most treasured magazines is a copy of *Weldon’s Sports Wear* dating from the 1930’s; an utterly delightful and thoroughly modern collection of both crochet and knitting patterns for “walking kit, winter sports, golf and ice skating”. The cover image in itself is enough to set my heart racing, and it was the tasselled skating scarf that provided inspiration for my own scarf design named after everyone’s favourite ice skating duo, Torvill & Dean.

Using the principle of ripple patterns, a simple repeat with increases and decreases creates the graphic chevron that runs the length of the scarf. Worked in double crochet throughout, this is a perfect project for beginners and more advanced crocheters alike. I chose a strong palette in three vintage inspired shades of the lovely BC Garn Semilla yarn from Loop. This is a light DK which blocks into an airy but warm fabric and is a joy to work with. My other half has his eye on the finished sample, but he is just going to have to learn to crochet and make his own as this one’s for me!

TORVILL & DEAN

This simple chevron scarf is inspired by a vintage skating pattern.

Part Two ♥

MODERN MOTIFS

Complete the motifs in the second part of our mystery design.

We hope you're enjoying our fun patchwork-inspired mystery quilt design, created by Annelies Baes and packed with bold, modern motif designs. In the second of three parts, Annelies has designed the remaining six colourful motifs to complement the combination of geometric shapes, striking stripes and textural stitches established in part one. Once these motifs are complete, keep an eye out for the final part in issue 75, when we will be joining and finishing the quilt. And if you missed the first six motif designs in issue 73, turn to page 75 to order a back issue today!

Your free gift ♥

TIDDLY-OM-POM-POM!

Claire Montgomerie shows how to use your free pom-pom maker to create fun and easy pom-poms in any yarn.

This month, our amazingly useful free gift is a handy pom-pom maker, which will take all the hassle out of creating perfectly shaped, fuzzy pom-poms. If you have ever tried using cardboard shapes or pom-pom makers with a hole in the centre, you will know that it is a pain to wind off balls of yarn small enough to fit through the hole. So this type, which split into quarters, will be a revelation as it means you can simply wind the yarn around the maker straight from the ball! This saves huge amounts of time and faffing and we find it is also perfect for children to use.

Our maker has handy clips to keep the sections securely in place when you pop them back into circles, and it is sized appropriately for versatile, good-looking pom-poms that you can use for anything from making simple yet striking garlands to adding to hats, scarves or any plain item which needs a quirky, fun touch.

HOW TO USE YOUR POM-POM MAKER

STEP 1: With the pom-pom maker open, hold the two sections together, ensuring the bobbles on one section fit into the dips in the other.

STEP 2: Wind yarn around each half of the pom-pom maker in turn.

STEP 3: Join the two halves and clip together securely to make a complete circle, then carefully cut around the outside edge of the yarn circle with a pair of small, sharp scissors.

STEP 4: Tie a piece of yarn approximately 30cm/12in long very tightly around the middle of the pom-pom. Knot tightly to secure.

STEP 5: Undo the clips and carefully pull the pom-pom maker apart to release the pom-pom.

STEP 6: Neaten the pom-pom by cutting off any yarn ends that poke out and then fluff up into a neat, squishy sphere by rolling gently in between your hands.

Pom-Pom Hat * * * *

MATERIALS

● Stylecraft Life Chunky, 75% acrylic/25% wool, 100g/148m/162yds

Yarn A: Grey 2420 x 1 ball

Yarn B: Zing 2423 x 1 ball

● 6mm hook

● Yarn needle

● Pom-pom maker and scissors

YARN ALTERNATIVES

Any chunky weight yarn will substitute for the hat. The hat only uses a small amount of yarn – you will get more than one hat from each 100g ball.

TENSION

Work 2 patt reps and 5 rows to measure 15 x 9cm/6 x 3½in using 6mm hook, or size needed to obtain tension.

MEASUREMENTS

Hat measures 16 x 16 (18 x 18, 21 x 21)cm/6 x 6 (7 x 7, 8 x 8)in when flat.

To fit baby of approx 0–3 (3–6, 6–9) months.

DESIGNER BIOGRAPHY

Claire Montgomerie is the editor of *Inside Crochet*, a textiles teacher and designer specialising in knit and crochet. Find out more at www.montyknits.blogspot.com.

SPECIAL STITCHES

Shell: 5tr in next st. When working into a shell, work into central treble of 5tr group.

START **HAT**
With yarn A, make 32 (38, 44)ch.

Row 1: 1dc in second ch from hook, *miss next 2ch, 1 **Shell** (see *Special Stitches*) in next ch, miss next 2ch, 1 dc in next ch; rep from * to end, turn – 5 (6, 7) shells.

Row 2: 3ch (counts as 1tr), 2tr in dc, 1dc in next shell, *1 shell in next dc, 1dc in next shell; rep from * to last dc, 3tr in last dc, turn.

Row 3: 1ch, 1dc in top of first tr, 1 shell in next dc, *1dc in next shell, 1 shell in next dc; rep from * to half shell, 1dc in top of 3ch, turn – 6 shells.

Rep last two rows until work is approximately 16 (18, 21)cm/6 (7, 8)in long. Fasten off.

FINISHING

Fold work in half to make a square and sew up back seam, along the foundation chain edge, using mattress stitch.

Make three pom-poms using yarn B and attach one to point of hat at top of back seam and one at bottom of each front edge.

If you wish, you can add ties to each front edge to ensure the hat stays on, but do not leave child unsupervised.

END

POM-POM GARLAND

↔ When you have finished the hat you will have scraps of yarn left over that are perfect for making a pom-pom garland. Use these and any other colourful yarns you may have to hand. We used an assortment of pom-poms made in Stylecraft Life Chunky in Zing 2423 and Cream 2305 and Stylecraft Special XL in shades Sage 3056, Pomegranate 3057 and Petrol 3059.

With yarn B, crochet a length of chain as long as desired garland. Make enough pom-poms to fit length of crochet chain and thread the chain through each pom-pom in turn to finish the garland.

Twizl Wrap

BY DAWN TURNER AS JAYDEE CROCHET

This versatile wrap is perfect for a daytime walk or a glamorous evening out.

MATERIALS

- Wendy Chic, 60% nylon/30% polyester/10% metallised polyester, 50g/80m/87yds
- **Shade:** Da Vinci 262 x 4 balls
- 8mm & 10mm hooks
- Yarn needle

YARN ALTERNATIVES

Any similar weight “feather” yarn would substitute well here. We suggest King Cole Moments, Wendy Yeti or Wendy Arctic (a heavier weight yarn). Wendy Shimmer, an “eyelash” yarn, could also be used. Approximately 300m/320yds of any feather or eyelash yarn may be used as a contrast for the middle rows (see *Pattern Notes*).

TENSION

Work starting chain to measure approximately 130cm/50in using 10mm hook, or size required to obtain tension, in order to wrap comfortably.

However exact tension is not essential for this pattern.

DESIGNER BIOGRAPHY

Dawn has more than 40 years of crocheting experience, and enjoys designing, selling at craft fairs and teaching at a local yarn shop in Grimsby.

PATTERN NOTES

If using an eyelash yarn try to avoid it twisting as you work.

Join in any new yarn at the end of a row for best effect.

For a different overall effect work the first four or five rows in a feather yarn, work the next four or five rows in eyelash yarn, then complete the wrap with feather yarn.

START **WRAP**
Foundation Row:
 With 10mm hook, loosely work 66ch, turn.

Row 1: 1dc in second ch from hook and in every ch to end, turn – 65dc.

Row 2: 4ch, [1tr, 1ch] in each st to end, turn.

Change to 8mm hook.

Row 3: 5ch, 1dtr in first ch-sp, 2ch, [1dtr, 2ch] in each ch-sp to end, turn.

Rows 4–10: Rep row 3 turning with 5ch each time and working first st in first sp.

Edging Rnd: Turn work sideways

then work 3dc in each row end, work 3dc in first st of starting ch then 1dc in each st along foundation row, working 3dc in last st, work 3dc in each row end, sl st to join to first dc. Fasten off.

FINISHING

Weave in any yarn ends securely under dc edge stitches.

You may like to knot the ends of any yarn which has a looped core.

Cosy Turban Headband

BY ANNA MELIKSETYAN

The cosy turban-inspired headband is worked in the round using a simple rib stitch— perfect for beginner crocheters.

MATERIALS

- Debbie Bliss Roma, 70% wool/30% alpaca, 100g/80m/87yds
- Shade:** Steel 03 x 1 ball or Schachenmayr Highland Alpaca, 50% alpaca/50% wool, 100g/41m/44yds
- Shade:** Mint 2965 x 1 ball
- 15mm hook
- Yarn needle
- Stitch marker

YARN ALTERNATIVES

You can use any super bulky weight yarn to achieve a similar effect. For the samples shown, we used the Roma held double for an extra warm, bulky look, but it could be held singly, which would give a slightly looser tension. The Highland Alpaca was held singly – choose the look you prefer.

TENSION

Work 5dcblo and 6 rows to measure 10 x 10cm/4 x 4in using 15mm hook, or size required to obtain tension. However exact tension is not essential for this design.

MEASUREMENTS

To fit head circumference of 54cm/21in.

DESIGNER BIOGRAPHY

Anna is the co-founder of HANK & HOOK, an online yarn boutique focused on DIY. Find her on Instagram and Twitter @hankandhook.

SPECIAL STITCH PATTERNS

Dcblo: Work as a basic double crochet, but instead of inserting the hook in both loops, insert the hook in the back loop only.

PATTERN NOTES

The pattern is made by hooking two rings and joining them together as you work to create a twisted look.

The rings are worked in a spiral. Do not turn or join each rnd, place a marker in the first st of the rnd and move it up as you go to denote the beginning of the round.

LOOP ONE

With chosen yarn and 15mm hook, make 27ch, being careful not to twist the chain, join into a round with a sl st.

Rnd 1: 1ch, 1dc in each chain around, do not join rnd, pm for working in spirals – 27dc.

Rnds 2 & 3: 1dcblo in each st around, do not join rnd – 27dcblo. At the end of rnd 3, finish off with a sl st in the last dcblo of the rnd. Fasten off, leaving a long end for sewing up.

LOOP TWO

With chosen yarn and 15mm hook, make 27ch. Before you join the chain into a round, you will interlock Loop Two with Loop One to form a figure eight.

Insert the chain through Loop One and join the chain into a ring around Loop One with a sl st in the first chain, being careful not to twist the chain.

Working Loop Two exactly as you worked Loop One, starting with rnd 1.

ASSEMBLY

Step 1: Lay the piece flat in a figure 8 so that the twist in the centre is visible. Spread the pieces so that the wrong sides of the work are above the twist, and the right side of the pieces are below the twist.

Step 2: Join the back of the headband by sewing up the two edges using mattress stitch.

Step 3: Connect the top and bottom halves at the front of the headband using mattress stitch.

Flower motif is worked almost

the same as owl motif.

Follow the instructions of owl motif from rnd 1 to rnd 2 with coloured yarn. From rnd 3 to rnd 9 use yarn D. When working in rnd 7, instead of working into blo, work in both loops. Then continue to follow the instructions for rnd 8 and rnd 9.

JOINING MOTIFS

Position all the parts as desired, then join with your favourite method. When joining, take care to maintain the proper stitching tension and alignment. The motifs should be flat and not bunch

or stretch at the seams. Blanket shown was joined via whip stitch through both loops. After joining, weave in ends.

YARN ALTERNATIVES

TENSION

MEASUREMENTS

Finished cosies are 12.5cm/5in tall and 5cm/2in wide.

DESIGNER BIOGRAPHY

Ali loves teaching crochet and designing unique crochet patterns. See www.gethookedoncrochet.co.uk or www.macscrochet.blogspot.com for more or follow her on Twitter @CrochetAli.

PATTERN NOTES

The pattern is worked flat in the round to create the base before working upward in spirals to the desired height.

Use a stitch marker or short length of waste yarn to indicate the beginning of the round.

Change colours in the last pull through of the final stitch of the round. To make a smooth colour change after working the pull-through, sl st in next dc then continue to work as per pattern. The sl st counts as 1 stitch.

This pattern is easy to adapt for differently sized chair legs. Simply work more or fewer stitches in rnd 1 and/or use a smaller or larger hook. You can also make the socks longer or shorter by working different amounts of dc rows.

DESIGNER BIOGRAPHY

PATTERN NOTES

Mitts are made using two strands of yarn held together throughout pattern, leaving long tails of yarn at beginning and end to sew up sides. To work, wind each ball into two balls before you begin, or simply use the yarn from the beginning and end of the ball together.

To make mitts longer, simply repeat row 2 more times. Pattern works to a multiple of 3 sts. To make mitts wider or narrower, simply adjust beginning ch, ensuring it is always a multiple of 3.

MITT

START **Make two**
With two strands of yarn A, 27 (30)ch fairly loosely, leaving a long tail to sew up side.

Row 1: 2tr in third ch from hk, *miss 2ch, (1dc, 2tr) in next ch; rep from * to last 3ch, miss 2ch, 1dc in final ch, turn.

Row 2: 2ch, 2tr in top of final dc, miss next 2tr, *(1dc, 2tr) in next dc, miss 2tr; rep from * to end, finishing with 1dc in top of 2ch. Change to yarn B on last pull through.

Rows 3–14: Rep row 2 in yarn B throughout, changing to yarn A at end of row 14.

Rows 15 & 16: As row 2. Fasten off, leaving long tail to sew up side.

FINISHING

With right sides together, fold mitt in half lengthwise.

Using long tails of yarn, sew up edges of mitt using whip stitch as follows:

From top of mitt to top of thumb hole, sew down four rows. From base of mitt to base of thumb hole, sew up eight rows, leaving a thumbhole gap of four rows.

Turn mitt right side out to hide stitching.

Attach two strands of yarn A at any point on edge of thumbhole and make dc at regular intervals around entire hole (approximately 14dc around), joining with sl st back at start.

Next Rnd: 1ch, 1dc in each st around.

Fasten off yarn. Sew in all ends.

Charlotte Sweater

BY CLAIRE MONTGOMERIE

This simple sweater works up super-fast due to the chunky yarn used, but some gentle waist shaping ensures it remains flattering.

MATERIALS

- Twilleys Freedom Wool, 100% wool, 50g/50m/55yds
- Shade:** Oyster Grey 1122 x 10 (10, 11, 13, 15, 17) balls
- 10mm hook

YARN ALTERNATIVES

A chunky weight yarn will substitute well here. Twilleys Freedom Wool is a lightweight, soft and warm roving yarn, so look out for those properties in an alternative.

TENSION

Work 6.5htr and 4 rows to measure 10 x 10cm/4 x 4in using 10mm hook, or size required to obtain correct tension.

Vintage-Look Beret

BY SUSAN PINNER

This retro-style beret with a floral centre is made in the round in a soft and snuggly alpaca.

DESIGNER BIOGRAPHY

Susan Pinner is a huge fan of the colourful effects that can be achieved with the humble granny stitch pattern. She has written two books, *Granny Squares* and *Granny Squares & Shapes*. Read her blog at www.8thofthe8thofthe8th.blogspot.co.uk.

SPECIAL STITCHES

Finger wraps

Step 1: Wrap the yarn around one or two fingers the number of times stated. A finger wrap of three wraps is shown here (fig 1).

Step 2: Slide the loops off your finger, holding them tightly, and insert the hook (fig 2).

Step 3: Make the stitches as instructed into all of the rings until the rnd is complete (fig 3).

Step 4: There are no knots, and you cannot see where the stitches begin or end (fig 4).

Rdtrf: Yoh, insert the hook around the post of the stitch on the row below the one you are working on. Complete the stitch as usual, making sure you do not pull too tight (fig 5).

Dtr cluster

Step 1: With a loop on the hook, yoh twice (three loops on hook). Push hook through a base stitch, wrap yoh and pull through (four loops on hook). Yoh and pull through two loops (three loops on hook). Yoh, pull through two loops (two loops remaining).

Step 2: Repeat the beginning of the dtr stitch into the same base stitch, holding the last loop of each stitch on the hook as many times as required.

Step 3: Yoh and pull through all of the remaining loops on the hook to draw all the stitches together to make a cluster. Complete the stitch with a chain stitch.

DESIGNER BIOGRAPHY

Diana is a crochet teacher, blogger and designer, who enjoys designing patterns that can be completed with as little sewing up as possible! She can be found online at www.thecrochetchain.co.uk and www.thecrochetchain.etsy.com.

PATTERN NOTES

The pattern starts with a single chain, which is worked in along both sides, and continues in a spiral, with a running yarn marker at the start of each row. This is a piece of scrap yarn that you place at the beginning of each round, then flip backward and forward over your work at the beginning of each following round, forming a running stitch up your work. It's an easy way to keep track of the start of each round. This style of crochet means that the start of each row is slightly to the right of the previous row.

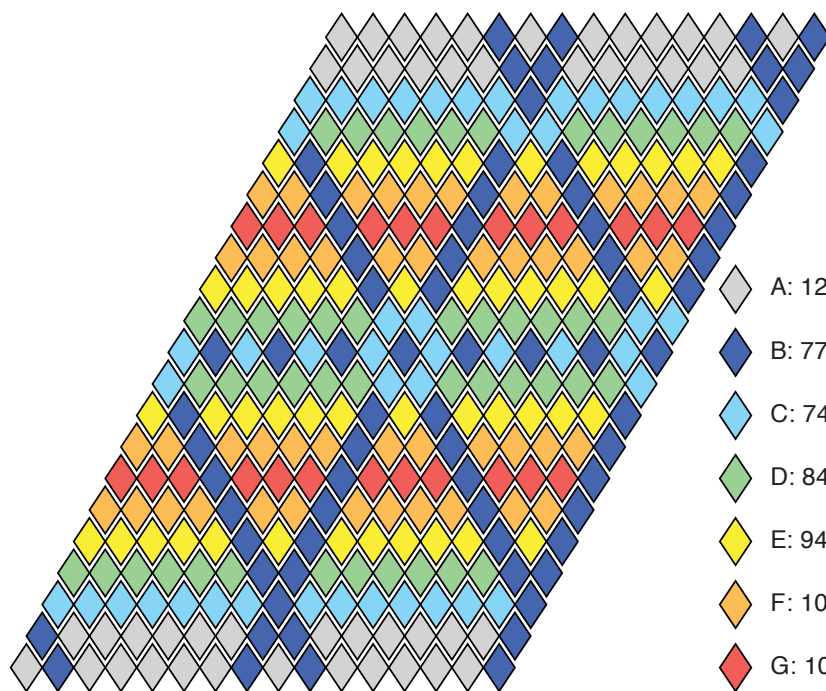

When working in tapestry crochet in a stretchy yarn like this Merino, be very aware of how tight the yarn is as you make the stitches

and especially as you change colours. Try not to pull too tight.

There are only two colours in each round, so when starting each new round drop any unused colours and bring up only the two colours stated in the pattern. Do not cut the yarn until the colour is not longer needed. Work over the starting end as you go so that there are fewer ends to sew in when the project is complete.

The yarns will twist around each other as you work – this is the nature of tapestry crochet. Just take a little time at the end of each row to sort them out.

In written pattern the number of dc to work is given with the yarn colour, so “2A” means “work 2dc in yarn A”.

- ◆ A: 122 Grey
- ◆ B: 77 Teal
- ◆ C: 74 Turquoise
- ◆ D: 84 Lime

GRANNY SQUARE

Make 58 in yarn A, 16 in yarn B, 4 in yarn C, 21 in yarn D and 157 in yarn E
5ch, join into a ring with a sl st.

Rnd 1: 3ch (counts as first tr), work 2tr into ring, 3ch, (3tr, 3ch) three times. Join with sl st into top of beg 3ch.

Rnd 2: 3ch (counts as first tr), work corner (2tr, 3ch, 3tr) into ch-sp: *1ch, (3tr, 3ch, 3tr) into the ch-sp; rep from * two more times, 1ch. Join with sl st into top of beg 3ch.

Sl st from the end of the rnd until you reach the first 1ch stitch at a corner. Continue with the next rnd.

Rnd 3: 3ch (counts as first tr), work corner (2tr, 3ch, 3tr); work remaining sides: *1ch, 3tr into ch-sp, 1ch, work corner (3tr, 3ch, 3tr); rep from * two more times, 1ch, 3tr into ch-sp, 1ch and join with sl st into top of beg 3ch. Fasten off.

FINISHING

Join the squares as shown in the diagram (above) using whip

stitch with right sides facing and working through both strands of the stitches.

This way of joining is fairly invisible, so where there is more than one colour being joined, you can choose either square colour; however, it is advisable to make it symmetrical or stick to a rule.

Prepare the fabric piece by folding over each edge by 1.27cm/½in. Then fold over again by 1.27cm/½in and pin, prior to sewing, to produce an even edge. Once all fabric edges are hemmed, pin the top of the crochet piece and fabric piece together with right sides facing each other, 1.27cm/½in from the top edges of both pieces, and sew together. When sewing, take care not to allow the granny squares to pull and stretch.

Trim any excess thread and turn right side out.

END

This clever design is taken from *Pixel Crochet* by Hannah Meur (£11.99, Search Press).

PATTERN NOTES

Tapestry Crochet:

Work 1dc in the colour given whilst carrying the second yarn

along the top of the previous row and working over it. Change colour in last yoh of previous st.

This pattern is worked in a spiral in the round, holding two strands of yarn together

to achieve a sturdier texture. Place a stitch marker in the first stitch to track your starting point – this will be important when you begin to change colours.

BASKET

With yarn A, make 64ch, join with a sl st in first ch to form a ring and place marker in first st.

Rnd 1: Work 1dc in each ch to end, join with sl st in first dc and move the stitch marker up (continue moving the marker with each consecutive rnd) – 64dc.

Rnds 2–9: 64dc, join with sl st in first dc.

Rnd 10: 18dc, join yarn C and carrying yarn A across the back, work 1dc in yarn C, using yarn A work 1dc in each st to end, join with sl st in first dc.

Rnd 11: With yarn A work 18dc, with yarn C work 2dc, with yarn A work 1dc in each st to end, join with sl st in first dc.

Note: On each rnd, always work the first 18 sts in yarn A (and from rnd 14, yarn B) then change to yarn C, increasing the number of yarn C sts by 1 with each consecutive rnd.

Rnd 12: Rep rnd 11 working 3dc with yarn C.

Rnd 13: Rep rnd 11 working 4dc with yarn C.

Rnd 14: Change from main yarn A, to main yarn B and rep rnd 11 working 5dc with yarn C.

Tip: When changing the main colour, try making the change in the corner where you've placed the stitch marker, so the colour transition is unnoticed.

Rnds 15–26: Rep rnd 11 and cont increasing the number of yarn C sts by 1 with each consecutive rnd – total 17dc in yarn C.

Rnd 27: With yarn B work 18dc, using yarn C work 30dc, miss 5 sts, 9ch, insert hook in sixth st and cont working dc to end of rnd and change to yarn B – handle made.

Rnd 28: With yarn B work 18dc, using yarn C work dc to the 9ch-sp, work 9dc around the handle, work dc to end of rnd, join with sl st in first dc. Fasten off.

FINISHING

Sew up the bottom of the basket using mattress stitch and weave in ends.

- 10mm hook

YARN ALTERNATIVES

Any chunky or chunky fur yarn will substitute here. Lang Yarns Softhair or Lion Brand Pelt (both available from www.loveknitting.com) would work well, and both have a similar yardage in a 50g ball to the Erika Knight yarn's 100g. You could also experiment with the drape using a chunky yarn, such as Wendy Eider, as the furriness of the yarn will hide the stitches – you will simply get a less stiff, dense fabric.

MINI MASTERCLASS

Crochet revamp

It's time to rescue those much-loved, but slightly worn garments from the back of your closet. Tracey Todhunter explores ways to cover up rips, tears and stains with crochet.

We all have items lurking in our wardrobe that we don't wear any more, but can't bear to throw away. Cardigans with a frayed cuff, a tear in the fabric of a favourite dress or a hole in the elbow of our snuggliest jumper. Instead of letting these much-loved items languish in your wardrobe why not try revamping them? With a little imagination and some basic crochet skills we can easily give our wardrobes a new lease of life.

Enterprising crocheters may already be familiar with extending the life of handmade garments for babies and toddlers by adding a decorative frill to lengthen a dress or jumper. This was fairly common in my childhood, and a habit I continued with my own daughter's wardrobe. A strategically placed piece of crochet applique can hide all manner of stains and fabric mishaps, and patches are no longer the preserve of 1970's denim – think of a floral embellishment to cover a rip as a “woolly tattoo” or a badge of honour awarded to your favourite jumper for years of faithful service. It may surprise you to know that for some time it has been possible to buy “Clothes Plasters”, beautiful embroidered patches, designed to cover up holes, rips and stains in the most attractive way. In fact, it was coming across an in-store display of these that prompted me to pick up my crochet hook and make my own repairs.

While we're used to crochet motifs embellishing our clothes, “visible mending” or the art of the decorative repair is less well known and I think it's high time we began to think about celebrating those “battle scars” and putting a little effort into extending the lives of our favourite garments. There is a growing fashion movement which rejects the “fast fashion” of the high street, preferring instead to search out second hand, vintage or “preloved” clothes and alter them for modern figures and lifestyles. Once you begin to see the possibilities in revamping, repairing or refreshing a preloved garment with crochet you will begin to see stains and tears as an opportunity rather than a misfortune. And you'll be in good company. The much admired textile artist Tom van Deijnen has been championing the old and the imperfect for some time and his “Visible Mending Programme” has inspired many of us to see our wardrobes in a new light. He certainly reminded me that shop-bought clothes deserve just as much care and attention as the ones we make for ourselves.

Just as the Japanese art of Kintsugi makes a virtue of cracks and flaws in pottery by infilling with gold and other precious metals, a creative mend or patch enhances the original garment and tells the story of how it has been worn and loved. Once you begin to consider repair as a way to extend the life of your clothes, the mends, darns

“Once you begin to see the possibilities to revamp, repair or refresh a preloved garment with crochet you will begin to see stains and tears as an opportunity rather than a misfortune”

and patches become opportunities to personalise your wardrobe and each “fix” simply adds another detail. A patch can add a splash of colour, an embroidered flower turns a hand-me-down scarf into a brand new item for a younger child, while a darned sock reflects the pride taken in making the original pair.

The three projects shown here are garments from my own wardrobe, none of which I made myself. Nonetheless, they are much loved and I definitely consider them “wardrobe staples”. The cotton tunic that I wore so often the fabric began to fade and perish was no longer fit to be seen in public, yet I was loathe to throw it away. Instead I chose a few complementary colours of 4 ply yarn and hooked up some simple flowers. I’ll admit that it took longer to sew them on than it did to crochet them, but an evening spent hand stitching has been well rewarded. The tunic now has a new lease of life. It is often admired and has sparked many conversations. Yes, it has to be hand washed, as I fear the patches may fade or shrink in the wash, but that is no real hardship for those of us who are used to handwashing our crochet garments.

The possibilities for embellishment and decoration are endless and only limited by the time you have available. They are also lessons in thrift and ingenuity. The elbow patch pictured here was made using tiny scraps of yarn left over from a previous commission. Too small for anything else, these “ball ends” would most likely have been thrown away, so their reinvention as a floral elbow patch also rescued them from landfill.

The cardigan may look like a deliberate act of crochet enhancement, but it hides a frayed cuff. Now, instead of being a cosy “comfort garment” picked up for a couple of pounds in a charity shop, it has been promoted to “going out” wear. I am tempted to add more buttons and more floral patches to the front and around the collar, and each time I open my button tin I see more opportunities for enhancement. These days I look twice at clothes with small flaws, seeing a chance to get creative without the effort of making a whole new garment from scratch or spending an afternoon searching for a replacement on the high street.

The simple projects here should be seen as inspiration: use them as a starting point to revive your own wardrobe and a chance to reveal your personality. ➔

How to Crochet

Liz Ward's Cowl Neck Poncho (issue 71) uses chunky yarn and a large hook to create a big impact

I have always believed that anyone can learn to crochet, so long as you follow one simple rule: don't try to run before you can chain! The chain is the most simple of

stitches and therefore ideal for practising the all-important hold, which helps create the perfect tension for forming all the following stitches. When my mother taught me to crochet, she followed her grandmother's lead and helped me to hook metre upon metre of chain before I was shown any further stitches. It was a fantastic foundation for learning the more difficult techniques. Once your chains are looking even and feel comfortable to create, then progressing on to the stitches becomes much easier.

If at any point you feel as if you have lost your hold, go back to those comforting lengths of chain until your confidence returns. My biggest tip is to remember that this wonderful craft is well known for being relaxing and fun, which is why crochet is completely addictive, so enjoy it!

TEACH YOURSELF
How to hold the work, chains, double & treble crochet, slip stitch

TURN THE PAGE FOR ALL YOU NEED TO GET STARTED

THE BASICS

To crochet smoothly and efficiently, you must hold the hook and yarn in a relaxed, comfortable and consistent fashion. This will also ensure that your tension is even and accurate. There are two main ways of holding the hook and two main ways to tension the yarn. You can choose whichever combination feels more natural for you, or a variation on these.

HOLDING THE HOOK

KNIFE GRIP

Hold the hook in your dominant hand as you would a knife.

PENCIL GRIP

Hold the hook in your dominant hand as you would a pencil.

HOLDING THE YARN

FOREFINGER METHOD

Wrap the ball end of the yarn around the little finger of your opposite hand, under the next two fingers and over the forefinger. Hold the work steady with your middle finger and thumb, then raise your forefinger when working to create tension.

MIDDLE-FINGER METHOD

Wrap the ball end of the yarn around the little finger of your opposite hand and over the other fingers. Hold the work steady with your forefinger and thumb, then raise your middle finger while you are crocheting to create tension.

Working left-handed

To crochet left-handed, simply do the opposite to the right-handed holds. Hold a mirror up to any picture in this guide to see how to work.

TOPTIP

It doesn't matter if your stitches tend towards being slightly tight or even a little loose; you are aiming for an even tension throughout to achieve a professional finish.

GETTING STARTED

SLIPKNOT

A slipknot creates the first loop on the hook.

1 Make a loop in the yarn around 10–20cm/4–8in from the end. Insert hook through loop, catch the back strand of yarn and pull it through to the front.

2 Pull the ends of the yarn to secure the knot around the hook, but not too tightly or it will be hard to pull the first loop of chain through.

CHAIN

Most crochet projects begin with a length of chain. This is the perfect stitch to practise your hold and tension with.

1 Holding just the hook with point up in your dominant hand, and the yarn in the other, grip the slipknot with the yarn holding hand. Work a yarn round hook (yrh or yoh) by passing the hook in front of the yarn, under and around it.

2 Roll the hook round in your fingers towards you to catch the yarn and pull through loop on hook. One chain made.

3 Ensuring the stitches are even – not too loose or tight – repeat to make a length of chain.

TOPTIP

The action of working stitches causes a constant rolling of the hook in your fingers; hold the hook pointing up when performing the yrh, then roll it round towards you to point down when pulling through the loops so that you don't catch the hook in the stitches.

THE MAIN STITCHES

SLIP STITCH (sl st)

A slip stitch is usually used to join one stitch to another, or to join a stitch to another point. It is generally made by picking up two strands of a stitch but when used all over, you usually only pick up the back loop.

1 Insert hook into st or chain required. Yarn over hook, as when you make a chain. Pull a loop through all stitches/loops/work on hook to finish slip stitch.

COUNTING A CHAIN

The right side of your chain is the one that looks like a little plait of “v” shapes. Each “v” is a stitch and must be counted. When you are working the chain, you do not count the slipknot, but begin to count your chain when you pull through the first loop. To count the chain afterwards you count the slipknot as the first stitch, but not the loop on the hook, or “working” loop.

Double crochet stitches are perfect for making amigurumi, while treble crochets are used to create the classic granny square design

Make Irene Strange's adorable Hand Hotties from issue 61, worked in double crochet stitches

DOUBLE CROCHET (dc)

The smallest stitch, creating a dense fabric perfect for amigurumi.

1 Insert hook into chain or stitch, front to back. Yarn over hook and draw through stitch to front, leaving you with two loops on the hook. Yarn round hook.

2 Draw through both loops to finish the stitch. Double crochet completed.

HALF TREBLE CROCHET (htr)

Slightly taller than a double crochet stitch, with a softer drape to the resulting fabric.

1 Yarn over hook, insert hook into st from front to back and draw loop through stitch only. This gives you three loops on the hook. Yarn round hook.

2 Draw yarn through three remaining loops on the hook together to complete half treble.

TREBLE CROCHET (tr)

The tallest of the basic stitches, great for using within more complex patterns.

1 Yarn round hook, insert hook into stitch from front to back and draw loop through stitch only. This gives you three loops on the hook. Yarn round hook.

2 Pull loop through two loops. Two loops on hook. Yarn round hook.

3 Pull loop through the remaining two loops to complete treble, repeat to end of row.

FASTEN OFF

Pull up final loop of last stitch to make it bigger and cut the yarn, leaving enough of an end to weave in. Pull end through loop, and pull up tightly to secure.

COUNTING STITCHES

Count the post or "stem" of each stitch from the side of your work. Each post counts as one stitch.

Double crochet

Treble crochet

TOP TIP

Try to count your stitches at regular intervals, usually at the end of every, or every other, row and especially after an increase or decrease row. It is best to try to catch any mistakes as quickly as possible, as this will make them much easier to rectify!

USING THE STITCHES

WORKING INTO A CHAIN

When working into a chain, you need to miss out the appropriate number of chain stitches called for with your particular stitch (see the information on turning chains, to the right). Now insert the hook from front to back into the next chain, under the top loop of the chain. Yarn over and draw a loop through to the front of the chain.

WORKING INTO WHICH LOOP?

Crochet stitches are always worked through both loops of the next stitch (this looks like a “v” on top of the stitch), unless the pattern tells you otherwise.

Sometimes a pattern will ask you to work only through one loop of the stitch. To work through the front loop only (flo), insert your hook under the front loop of the next stitch, then bring it out at the centre of the stitch, then complete. To work through the back loop only (blo), insert your hook through the centre of the stitch, then under the back loop to the back, then complete the stitch. Sometimes you are even asked to work in between the stitches. In this case, ignore the top loops of the stitch and insert your hook between the posts of adjoining stitches.

WORKING STRAIGHT

When working straight, you need to turn your work at the end of a row and then work a turning chain (t-ch) to the height of your intended stitch so that you can continue working along the next row. This chain often counts as the first stitch of the row and each type of stitch uses a different number of chain stitches for the turning chain.

With htr and taller stitches, you now miss out the first stitch of the row, then work into every following stitch. This is because the turning chain is tall enough to count as the first stitch itself, so is counted as the first stitch of the row. This also means that you must remember to work the last stitch of a row into the top of the previous row's turning chain.

WORKING INTO A SPACE

Sometimes you are asked to work into a space or a chain space. To do this simply insert your hook into the hole underneath the chain, then complete your stitch normally.

This is similar to working into a ring, as shown on page 94.

Starting off with a small accessory, such as Deborah Stuart's hat from issue 60, will inspire you to move on to larger projects

Sometimes you are asked to work into a space or chain space.

To do this, simply insert your hook into the hole underneath the chain and complete the stitch normally

KEEPING STRAIGHT EDGES

Knowing which stitch to work into when working straight can be a problem for beginners, because the turning chain has such a role to play. If you don't know which stitch to work into after making your turning chain, simply unravel back to the last stitch from previous row and insert a thread or stitch marker into that stitch. Make your desired turning chain then miss out the stitch with the thread in (except with dc stitches), as your turning chain now counts as the first stitch of the row. Once you have worked across all stitches in the row, you must remember to put a stitch into the top of the previous row's turning chain, as this also counts as a stitch.

WORKING IN THE ROUND

When working in the round, instead of working backwards and forwards along the work, turning at the end of each round, you simply work with the right side facing you at all times and you do not turn. When working in the round, you generally begin one of three ways:

WORKING AROUND A RING

This method of working in the round creates a large hole at the centre of your work. Its size is dependent on the length of chain used.

Make a length of chain as required, then insert your hook into the first chain stitch you made. Yarn round hook.

Work a slip stitch to join, creating a ring, and then work your turning chain dependent on which stitch you will be working into the ring. Insert hook into the centre of the ring and work the first stitch into this ring.

Work required number of stitches into the centre of the ring and join round with a slip stitch. Do not turn, but continue the next row around the last.

WORKING INTO A SHORT CHAIN

You can create a smaller hole in the centre of your work by working into a chain as short as 2ch long.

For double crochets, as in this example, work 2ch. For htr you would work 3ch and for trebles, 4ch.

Insert hook into the top loop of the first chain as shown. Yarn round hook.

Complete the first stitch in the chain as shown (illustrations show dc, but can be any stitch).

Now work the required amount of stitches into the same chain.

The sheer amount of stitches worked into one place will cause them to fan out into a round. Now join this round with a slip stitch and continue with the pattern.

ADJUSTABLE RING

This method is also referred to as the magic loop or ring, as it creates a round with no hole at the centre. Here it is demonstrated with double crochet.

Make a loop in your yarn, at least 15cm/6in from the tail end. Insert hook through the loop from front to back.

Pull yarn though to front of loop and complete the stitch around the loop and the tail end of yarn held double.

Work all the following stitches into the ring in the same way, over the two strands of yarn in the loop. Once all stitches have been worked, pull the loose tail end of the yarn to close the ring and join the round with a slip stitch.

SHAPING, COLOURWORK & TENSION

Once you've learned simple shaping stitches, you can create almost any garment – and add in different colours as you go with our simple technique. Make sure to check your tension first though, or your finished piece could be completely the wrong size!

INCREASING

To work an extra stitch, you simply need to work into the same stitch more than once. Work one stitch as normal. Insert hook into same stitch you've just worked and complete another stitch. One stitch increased.

DECREASING

To decrease a stitch, you need to work into two stitches without finishing them, then work them together.

For a double crochet (above), insert hook into next st, yarn over hook and draw a loop through the stitch, but do not finish the double crochet stitch as usual. Insert hook into following st, yarn over hook and draw a loop through the next st, so there are three loops on the hook in total. Yarn over hook and draw the loop through all loops on hook, drawing two stitches together. One stitch decreased.

For a treble crochet, work a treble into the next stitch until the last step of the stitch, two loops on hook. Do the same into the following stitch, three loops on hook. Draw through all three loops on hook to draw the two trebles together. One stitch decreased.

JOINING IN A NEW COLOUR

To join in a new colour (or a new ball of the same colour), you can simply fasten off the old yarn and then attach the new colour with a slip stitch into the top of the last stitch made. However, for a neater join, you can also work the colour change as follows:

Work the last stitch in the colour you are using first, up to the final step, so that the stitch is unfinished. Pull the new colour through the loops on your hook, completing the stitch and joining the new colour at the same time.

Working a new colour over double crochet

Working a new colour over treble crochet

Once you have joined in the new yarn, you can weave in the ends of both yarns as you go, by holding them on top of your stitches and working round them as you work into the following stitches. Do this for at least 5cm/2in then cut the remaining ends.

TENSION/GAUGE

A tension swatch is used to ensure that you are working at the tension called for in the pattern. It is essential to check this, otherwise your finished garment is likely to be the wrong size! Crochet a small square of just over 10 x 10cm/4 x 4in in the main yarn and stitch used in the pattern, then count and calculate the average amount of stitches per cm.

Chain a few more stitches and work more rows than the tension in the pattern suggests you'll need for this size. Once you have completed the swatch, use a measuring tape or ruler, place some pins at 0 and 10 and take some average measurements – count how many stitches and rows to 10cm at different points over the swatch.

If you find you have more stitches per cm than indicated in the pattern, then your tension is too tight and you need to work more loosely. The best way to do this is to increase the size of hook you're using by a quarter or half millimetre until the tension is as close as you can get it. If there are fewer stitches than required, then you are crocheting too loosely, and you need to decrease the size of hook used in the same way.

TURN THE PAGE FOR CLUSTER STITCHES, TIPS AND A FULL GLOSSARY OF CROCHET ABBREVIATIONS, UK VS US TERMS AND HOOK SIZES

CLUSTERS

Clusters are groups of stitches worked into the same stitch, but rather than an increase, they still only equate to one stitch overall. Clusters can be confusing to work, so here are the details of some of the main cluster stitches.

BOBBLE

A bobble is a number of stitches (generally trebles), half finished and all worked into the same stitch. Work each stitch until the last step, omitting this final step. Once the desired number of half finished trebles have been completed, you will have one more loop on your hook than you have half finished trebles. Yarn round hook, then pull through all loops on hook to complete the bobble.

POPCORNS

Popcorns are a number of complete stitches worked into one stitch.

1 Once the sts are completed, remove your hook and insert back into the first stitch worked, then through the final loop.

2 Yarn round hook and pull through everything on the hook. Popcorn complete.

PUFFS

A puff is a number of elongated half trebles worked into the same stitch and then finished together, as follows:

1 Yarn round hook, insert into next stitch, pull a loop through the stitch and then pull it up to the height of all other stitches in the row.

2 Yarn round hook, insert into same stitch, pull a loop through stitch and pull it up to the height of all other stitches in the row. Repeat this step the desired number of times.

3 Yarn round hook and pull through all loops on hook. Puff made.

Choose light-coloured yarn for your first few projects to make sure that you can see all of your stitches easily – this helps prevent mistakes occurring

TIPS AND TRICKS

Working from a pattern

Once you have “cracked the code” and understand the stitches’ abbreviations, a pattern becomes much easier to read. Don’t read a pattern fully before starting it as it may make it seem more complex, but do take a brief look through to check if there are any abbreviations you are unfamiliar with. Consult the abbreviations tables opposite before beginning.

Purchase yarn with the same dye lot number on the balls to avoid unwanted colour changes and choose light coloured yarn for your first projects to make sure that you can see your stitches easily – this helps prevent mistakes occurring.

If you are attempting a project with multiple size options, circle or highlight the instructions for the size you are making throughout the pattern to avoid confusion. The smallest size is listed first, then all following ones inside brackets, increasing in size and separated by commas.

Where a pattern has an accompanying chart, use this for reference, as it shows the formation of the stitches as they will be worked and can help with tricky instructions.

Finally, and most importantly, for projects that need to have a good fit, always check your tension by swatching before you begin.

STYLISH STITCHES

Inside Crochet designer Annelies Baes chats about sleepless nights, intuitive design and yarny inspiration...

Turn to page 24 for the second part of Annelies's gorgeous mystery blanket design

Tell us about yourself... I live in Antwerp, Belgium. I am 42 (almost 43), married to Bert, and we have two boys, Vic and Arno.

How did you learn to crochet? I had a fabulous grandmother, and she taught me a lot of crafts: sewing, knitting and a tiny bit of crochet. It was quite a challenge for her and for me, since I am a leftie.

At primary school I remember making a crocheted potholder, and that was it. I did not crochet any more for a long time, until a few years ago. Our second son was about two years old, and he always had a difficult time sleeping. We were all suffering from lack of sleep, and I became very unhappy and frustrated, so one day my husband (in an attempt to cheer me up) told me: "Maybe you can knit a little sweater or something to feel better?" I looked at him, rolled my eyes and felt even worse! But a few days later I gave it a try. I discovered the combination of knitting needles and an active toddler was not a good idea, so I bought myself a crochet hook and made a hat.

How did you get into design? When crocheting that first hat, after a week of endless trying and a lot of frustration because I did not understand the pattern, my husband said: "If you are not happy with it, do it yourself and stop frustrating us all as well!" The rest is history. I found a lot of vintage craft books from my grandmother, my dear mother-in-law also gave me hers, and crochet became my passion. That was about six years ago.

Is crochet design your "day job" now? Yes, for a few years now. And I would never have become a crochet designer without my sleepless boy! So this proves that some of the most life-changing beautiful things occur when you are "troubled".

How would you describe your design style? Intuitive, trendy and stylish is what I try to be.

Intuitive: since my goal is that when people make my designs, I hope they will soon find the logic in the pattern, so they feel free to start freewheeling with it themselves, and come up with their own version.

Trendy: I want all people to discover that crochet garments are not stiff, heavy or old-fashioned. Crochet is fashion. I hope to express that with my garment designs.

Stylish: Lovely shawls, refined accents, cardigans with great fit and shapes... These are the major keywords for me.

What's a typical day like for you? During the week I start working at about 9am. Working means: designing, answering emails, writing new patterns, talking to my testing panel, corresponding with magazines, tech editors, yarn companies and taking care of my finances. I work until 3pm, then pick up my little boy from school. Then I take care of the children, homework, we enjoy some family time, eat fruit, prepare dinner...

In the evening, I usually work again, but the less "intensive" stuff like crocheting and social media. During the weekends we like to have lots of quality family time, so I get up very early, to make sure I get some work done in the early hours. In fact, I am a rather busy lady!

What's your favourite crochet technique? "Let the yarn do the talking." Most of the time I start with a ball of yarn. I put it in a very visible spot, and I just leave it there, and I think my subconscious just does the rest for me. Shortly after, the design comes up, I just see it. And I start designing.

What is your favourite thing about being a designer? For me it is the freedom. Together with the process of creating something by yourself. The freedom to take a ball of yarn and a hook, and to start with nothing, and make something.

What are your plans for the future? I love top-down designs, since they are so versatile, and I love the construction of these garments a lot. I also get a lot of questions and requests about how to design crochet garments. So I am thinking of a way to share my skills and techniques with the world. Maybe tutorials, or detailed classes about how to make fitted garments that people really like wearing.

My personal goal is to follow my heart, and not be afraid to use certain techniques or colours, because people may not like them. But just go for it and do it, without (too much) fear.
