## EDITOR'S LETTER

Hello and welcome to the December issue of *Knitting magazine*.

The nights have definitely drawn in now, which in our book is the perfect excuse for lots of knitting. We've brought together a collection of patterns that we think you'll love making and wearing – or giving.

In the main pattern section you'll find a great selection of cosy knits for chilly days, including a tweedy cable (**page 58**) and a lace knit with great drape (**page 62**). There's also the chance to win the yarn to make the *Snowflake jumper* (above right) – turn to **page 94** for details. The rest of the family doesn't miss out, with a chunky man's sweater, a boy's cardigan and a cute cape for girls, plus a clever baby blanket with a construction that makes it perfect for the travelling knitter. See more on **page 81**.

With wintry scenes in mind, don't miss the polar bear pattern created exclusively for us by Louise Walker of the blog Sincerely Louise. Her cute animal scarves and knitted trophy heads have caused quite a stir – turn to **page 42** to read more about her and **page 79** to start making your very own polar bear.

In the news section you'll find ideas for knitterly gifts and a teaser for the brand new Shaun the Sheep Christmas special (**page 8**), and with essential yarn and book reviews plus plenty of tips and advice; we hope you'll find this a packed and interesting issue. It's certainly been fun putting it together!

Enjoy your festive knitting!

## MAKE SOMEONE'S CHRISTMAS!

This December, mental health charity Mind is encouraging knitters (and crocheters, papercrafters, bakers and stitchers) to organise a Crafternoon and get together for a couple of hours of festive making. Mind suggests setting aside the afternoon of 6 December to gather friends and colleagues and create Christmas decorations, cards, baked treats and presents. You can find out more about it at [mind.org.uk/yourcrafternoon](http://mind.org.uk/yourcrafternoon) – register online to receive goodies and ideas.

It's a fun way to help a charity that believes no-one should face a mental health problem alone.

# LET IT SHINE

Are you ready to be bedazzled by the glamorous collaboration from Rowan and Swarovski? The **CREATE YOUR STYLE SHINE** collection features artfully paired Swarovski crystals with Rowan's slinkiest yarns (including Kidsilk Haze, Kid Classic and Fine Lace). There are two pattern collections, Daytime and Evening. The Daytime Collection features 12 pretty designs accented with mainly pearl beads in the form of embellished sweaters and accessories such as scarves and mitts. The Evening Collection is an elegant and feminine collection of 11 stunning designs, including jumpers, shrugs, tops and a purse, with a stylish, understated use of crystals. All of the SHINE patterns are available to download for free from the Rowan website. The **CREATE YOUR OWN STYLE** crystal packs each include a beautiful mix of pearl and crystal beads with a tonal theme, such as 'Rose & Moonlight' and 'Amethyst & Black Pearl' to inspire you to create your own projects. [www.swarovski.knitrowan.com](http://www.swarovski.knitrowan.com)

## YOUNG STARTERS

For junior knitters, this book makes the perfect backup to live lessons from senior knitters (that's you). Even if they haven't quite grasped making a slip knot, the clarity of both text and illustration in *Let's Knit* is certain to help novices progress. And it's lots of fun too, with some great puns and commentary from the cute projects themselves, who also 'lend a hand' to illustrate the techniques. *Let's Knit*, £9.99 published by Dorling Kindersley.

## STITCHLINKS FOUNDER HONOURED

We've just heard that Betsan Corkhill has been invited to attend the 2015 Women of the Year lunch as one of this year's Women of Achievement. You may remember *Knitting's* November 2014 feature about Betsan's book, *Knit for Health and Wellness*, and her belief in the therapeutic value of knitting, which led to the foundation of the Stitchlinks community website. Our congratulations to Betsan on her recognition as a Woman of Achievement.

## DON'T KNIT WITHOUT

What a beautiful yarn for winter; DesignEtte's Bartolomeo is a beautiful blend of Tussah silk and wool that is silky soft and has a pearly shine. Perfect for glamorous Christmas knits! [www.designette.co.uk](http://www.designette.co.uk)

Rowan's beautiful brand new yarn Shine is part of its collaboration with Swarovski. Made from three strands of Kidsilk Haze and 100 3mm crystals threaded onto it, each ball even comes in its own box to protect its delicacy. Gorgeous! [www.knitrowan.com](http://www.knitrowan.com) 01484 681881

Louisa Harding has brought out a chunky version of her Amitola yarn called Amitola Grande. A blend of wool and silk, it has a lovely soft texture and some beautifully vibrant self-stripping shades. This is for head-turning knits this winter! [www.designeryarns.uk.com](http://www.designeryarns.uk.com) 01535 664222

Bouclé-style yarns are a big trend for A/W15 and Rico's Fashion Inuit is a super-snuggly, textured, chunky yarn that will knit up quickly. Great for oversized accessories or adding on-trend bouclé trims to collars and cuffs. [www.rico-design.de](http://www.rico-design.de)

## PICK UP STITCHES

With a hook at one end and a point at the other, this little tool is so simple yet clever we can't believe no-one has thought of it before. Clever Clover has produced these knitting repair hooks in bamboo, which come on a card in two sizes to cover most yarn weights. Keep these in your toolkit and you'll never need to 'borrow' a crochet hook from its project again.

## KNITTING CLASSES

The Artesano Academy in Berkshire has just announced a selection of classes for early next year taught by Anniken Allis, writer of the blog Confessions of a Yarn Addict. She will take you through Knitting in the Round on 7 January and Easy Lace on 9 January, and there are classes on Steeking and Finishing too. For more details about classes at the Artesano Academy, visit [www.artesanoyarns.co.uk](http://www.artesanoyarns.co.uk).

## THIS MONTH: ANITA MUNDT OF SCHEEPJES WOOL

Scheepjes is a family business. We are the largest producer of yarns for hand knitting and crochet that still exists in the Netherlands. The company was founded in 1855, and our name, tradition and quality have been favourites with many generations of Dutch crafters. As the thriving textile industry of the past struggled and saw the closure of many factories, Scheepjes survived to become the only Dutch yarn producer left standing.

As the story goes, our company was named after the little boats that traditionally would carry the wool down the Dutch canals to the factory, Scheepjes.

Today we maintain the same high quality and strong tradition we are known for in the Netherlands, and our products are available worldwide. We continue to produce cotton, wool, linen and acrylic yarns that closely follow today's fashions and colour trends. We like to offer our customers lots of choice, so many of our yarns can be found in more than 40 colours, to inspire the creativity of our customers.

Our yarn collection offers something for everyone, from our Colour Crafter Premium Acrylic range to our Luxury White Label yarns. One of our most popular yarns is Stone

Washed, a beautiful textured yarn that has found its way into the hearts of many well-known designers. We not only create yarn, we carefully engineer our yarns too. We recently developed our Bloom yarn with a brief to meet the requests of our customers; a thicker 100% cotton yarn that is not heavy, does not split when working and dries quickly after washing.

Our award-winning Crochet-A-Longs (CALs) have gained huge popularity. They have become known for offering stunning designs and beautifully packaged kits at affordable prices. The CALs themselves are free for everyone to follow via our Facebook page. Scheepjes is also committed to supporting and collaborating with independent designers, craftspeople and bloggers. Their work can be seen via our website in the form of free patterns and tutorials. Take a look!

## WATCH OUT FOR SHAUN!

A new festive film from Aardman Animation has become an annual tradition and this year, it features Shaun the Sheep in his very own 30-minute special. *The Farmer's Llamas* tells how three exotic South Americans come to the farm and the hilarious chaos that ensues – with Shaun saving the day in the end, of course. It's sure to be a family favourite, so keep an eye on BBC Christmas schedules.

# YARN REVIEW

**Jeanette Sloan** gets up close and cosy  
with these new winter yarns

## DEBBIE BLISS BOHEME

Two ends of fibre, one solid coloured and one random dyed, are loosely knitted together to make **Debbie Bliss Boheme**, a slightly open tubular yarn that has a subtle, overall tweedy effect. It's a chunky blend of 52% wool, 34% acrylic and 14% polyamide and the finished fabric is warm and supple with excellent drape, making it ideal for loose fitting jackets, cardigans and sweaters. There are 10 shades available, some of which are bolder than others so while shade 04 Musetta is a blend of orange, pink and blue on black, shade 09 Benoit, shown here, has flashes of purple and jade on a black base colour. Design support can be found in the Boheme booklet, which features over 20 ladies' designs for easy-to-wear garments and simple accessories. Hand wash at 30°C, dry flat. May also be dry cleaned but do not tumble dry.

**COMPOSITION:** 52% wool, 34% acrylic, 14% polyamide **WEIGHT:** 50g **LENGTH:** 50m  
**REC NEEDLE SIZE:** 10mm **RRP:** £4.95 **CONTACT:** Designer Yarns Ltd **T:** 01535 664222  
**E:** enquiries@designeryarns.uk.com **W:** www.designeryarns.uk.com

## MIRASOL YAYA

Multiple ends of fibre are gently combed and given the slightest of twists to produce **Mirasol Yaya**. Made from 100% Merino wool, it has a wonderfully soft and luxurious handle and because it's chunky it knits up in no time with a standard tension of 8 sts and 10 rows. The resulting fabric is warm and squishy with fat, beautifully even stitches so it's guaranteed to keep out the chill through the deepest winter months. There's a choice of 13 shades, each of which blends the base colour with complementary tones to add further interest so shade 1506 Jade, shown here, is a blend of green with delicate touches of yellow. Pattern support is available in a selection of leaflets featuring ladies' garments and accessories that will appeal to a variety of skill levels. Hand wash with care, dry flat, iron at a cool setting. May also be dry cleaned with care.

**COMPOSITION:** 100% Merino wool **WEIGHT:** 100g **LENGTH:** 50m  
**REC NEEDLE SIZE:** 9mm **RRP:** £11.95 **CONTACT:** Designer Yarns Ltd **T:** 01535 664222  
**E:** enquiries@designeryarns.uk.com **W:** www.designeryarns.uk.com

## NORO SILK GARDEN SOLO

This is a gently twisted blend of 45% silk, 45% mohair and 10% wool that offers a restrained alternative to some of Noro's more vivid yarns. Although single coloured, there are slight variations in tone throughout as well as occasional flecks of accent colour which, alongside slight variations in thickness and a subtle hairy texture, add texture and interest. **Noro Silk Garden Solo** knits to the same standard tension as its cousin Silk Garden, which means there's already plenty of design support, but new patterns are also available in the *Tribute to Noro* booklet. The rainbow-like palette of 10 shades includes grey-green Shade 2, shown here. Dry clean only, may be ironed at a cool setting.

**COMPOSITION:** 45% silk, 45% mohair, 10% wool **WEIGHT:** 50g **LENGTH:** 100m  
**REC NEEDLE SIZE:** 4.5-5mm **RRP:** £8.95 **CONTACT:** Designer Yarns Ltd  
**T:** 01535 664222 **E:** enquiries@designeryarns.uk.com **W:** www.designeryarns.uk.com

## BERGÈRE DE FRANCE HALO

To make this blend of 48% acrylic, 31% wool and 21% polyester the combed wool is lightly twisted with an end of highly lustrous fibre, creating a delicate contrast of matt and shine. Using a single end of yarn it knits to a standard DK tension, creating a soft, lightweight fabric with a subtle tweedy appearance. However, interesting and bulkier effects can be achieved by doubling or even tripling the yarn and using larger sized needles. **Bergère de France Halo** is an easy-to-care for yarn that is ideal for all ages but particularly for kids. Pattern support can be found in the *Magazine 180*, which features designs for both boys and girls from two to 12 years. There's a palette of eight shades to choose from, including shade 26, shown here. Machine washable on a wool setting at 30°C, dry flat. May also be dry cleaned with care but do not iron.

**COMPOSITION:** 48% acrylic, 31% wool, 21% polyester **WEIGHT:** 50g  
**LENGTH:** 145m **REC NEEDLE SIZE:** 3.5mm **RRP:** £8.10 **CONTACT:** Bergère de France

## YARNUNDYED KNITS DK BABY ALPACA

This is a blend of 70% baby alpaca, 23% nylon and 7% wool. On the ball this knitted tubular yarn has a fluffy, cotton wool-like appearance and slightly felted quality, and is ultra-airy to work with. It knits to a standard DK tension so there'll be lots of projects for which it can be used. The resulting fabric is amazingly lightweight and indulgently soft with surprisingly good stitch definition. **Yarnundyed Knits DK Baby Alpaca** has an understated halo of warmth that will keep you snuggled up right through the winter. As Yarnundyed's ethos is to celebrate natural wools and fibres in their undyed state this yarn is only available in natural dark grey, natural light grey and natural white (shown here), but this also means that any of them will work with any outfit, whatever the colour. At the time of writing there is no dedicated pattern support available but keep checking the website below for updates.

**COMPOSITION:** 70% baby alpaca, 23% nylon, 7% wool **WEIGHT:** 50g **LENGTH:** 130m  
**REC NEEDLE SIZE:** 3.5-4.5mm **RRP:** £7.50 **CONTACT:** Yarnundyed Knits  
**T:** 01274 471274 **E:** knits@knitglobal.com **W:** www.yarnundyed-knits.com

## WENDY CELESTE

This yarn has a loose chainette construction with tiny sequins along its length. It knits up to a standard DK tension, producing a slightly open fabric with a delicate quality that is both warm and lightweight. Most importantly for fans of sparkle, **Wendy Celeste** has a random scattering of 'bling', making it perfect if you're looking for something that will get you through the party season, whether you're knitting full garments or smaller accessories such as scarves, shawls or fingerless mitts. There are eight shades to choose from, each threaded with silver sequins that provide a contrasting sparkle to the base colour (shown here in shade 3338 Noir). Pattern support can be found in a selection of ladies' designs available as leaflets, featuring simple sweaters and cardigans as well as cowls, stoles and boleros with lace stitch details. Machine wash at 30°C on a gentle setting. Dry flat but do not iron.

**COMPOSITION:** 39% acrylic, 35% polyester, 13% wool, 13% mohair **WEIGHT:** 50g  
**LENGTH:** 112m **REC NEEDLE SIZE:** 4mm **RRP:** £2.50 **CONTACT:** Thomas B Ramsden  
**T:** 01943 872264 **E:** sales@tbramsden.co.uk **W:** www.tbramsden.co.uk

## RICO DESIGN FASHION STAR

**Fashion Star** by Rico Design is a chunky, rounded chainette yarn made from 76% acrylic, 15% polyester and 9% wool. Although it has a slightly felted texture, which makes the detail of the yarn less defined, it also has a lovely springy quality, which you'll notice as it passes through your fingers. With a standard tension of 10 sts and 14 rows, you'll notice your projects growing pretty quickly and the finished knitted fabric is lightweight and warm with plump, well-defined stitches and just the right amount of understated sparkle. While metallic yarns aren't to everyone's taste, this one is perfect for accessories such as scarves, hats and mitts if you're looking to add a touch of glamour to an outfit. It's available in just five neutral shades: black, dark grey, dark brown, pale gold and shade 003 silver, shown here. Pattern support can be found in the *Knitting Idea Compact no 348* booklet. Hand wash, dry flat. May be dry cleaned with care but do not iron.

**COMPOSITION:** 76% acrylic, 15% polyester, 9% wool **WEIGHT:** 50g  
**LENGTH:** 65m **REC NEEDLE SIZE:** 10mm **RRP:** TBC **CONTACT:** Love Knitting

## RICO DESIGN FASHION INUIT

This super chunky blend of 50% wool, 45% acrylic, and 5% polyamide is a highly textured bouclé yarn with a stitched binder, which gives the yarn stability but also means it has no elasticity as you knit with it. Despite this it knits up very quickly, producing an extremely dense fabric (around 1cm thick) that's spongy and lightweight with a standard tension of 7 sts and 10 rows. **Rico Design Fashion Inuit** comes in just four shades, two solid and two dual-toned, including shade 002 Cream/Black, shown here. The combination of texture and colour effect makes it hard to discern the stitches, so I'd recommend using the two-coloured options for plain stitches only. Pattern support can be found in the *Knitting Idea Compact no 377* and *384* booklets. Machine washable at 30°C on a gentle setting, iron on a cool setting but do not tumble dry. May also be dry cleaned with care.

**COMPOSITION:** 50% wool, 45% acrylic, 5% polyamide **WEIGHT:** 100g

Add a touch of frosty sparkle with next season's tones of silver and grey. **By Sarah Farley**

If you're after something subtle this winter then take your cue from Jack Frost and go for pale greys and whites with a sprinkling of silver shimmer. September's London Fashion Week shows suggested it's going to

be a silvery 2016. **ISSA** paired pale silver-grey printed onto white with organza for a look that's almost futuristic, while **MARY KATRANTZOU'S** classic super-fine knits were layered with smooth silhouettes, creating an austere yet

perfectly elegant feel. Meanwhile for **JOHN SMEDLEY'S** classic super-fine knits were layered with smooth silhouettes, creating an austere yet perfectly elegant feel. Meanwhile for **MARY KATRANTZOU**, silver was just one element in a magical explosion of colour that reminds me of lavish late 19th-century paintings by Gustav Klimt. Time to sparkle!

**KIY (KNIT IT YOURSELF)**

Pale grey and silver are both favourites for their versatility. These three knits are perfect examples; the *Ophelia* and *Freya* cape by Sirdar is fun and flirty, while Charlotte Johnson's *Quicksilver* sweater at Yarn Stories, shown here in Fine Merino DK in Lunar Grey, has an elegant double cable front and soft cowl neck. Danish designer Helga Isager has produced this delicate lace cardigan in a yarn shade called Sky, which has a certain wintry appeal.

**WHAT TO WEAR WITH**

If you'd rather keep your knits simple and add sparkle elsewhere, try these silvery looks from the high street. A necklace or clutch bag keep it simple while sparkly shoes don't have to be just for parties. Fishscale sequins are bold in a jacket, or for something more subtle a long skirt with a touch of shimmer is understated but worth a second look.

**EXPLORE MORE**

There are two main ways to add a touch of winter sparkle to knits – with metallic strands, or soft sequins (also called paillettes) spun into the yarn.

**METALLIC STRANDS**

Sirdar's soft and fluffy *Ophelia* is quite a furry yarn with a flat metallic thread running through the single shade, while *Divine*, also by Sirdar, includes a twist of silver and black within its graded colour changes. Its fluffiness makes it more muted. *Cabaret* by Stylecraft is a similar graded yarn with a metallic twist.

STYLECRAFT CABARET

SIRDAR OPHELIA

**SEQUINS**

Sirdar's *Soukie* crosses over the two types with a metallic thread and tiny sequins threaded in. Rico's *Creative Galaxy* Chunky is a lovely loose-spun yarn with subtly stormy graded tones and a holographic (rainbow) sequin every now and then. *Celeste* by Wendy includes a self-colour polyester thread to add shine – plus quite a lot of sequins.

## Sarah Farley takes three knits from this month's gallery and suggests alternative colourways and styling ideas.

Come December the thermometer has definitely fallen so it's time to go for the cosiest jumpers in your wardrobe. But that doesn't mean you have to feel bundled up – lace knits are a great way to keep the look light while you stay warm. The soft and pretty *Snowflake eyelet* jumper works well with sharp skinny jeans and a bit of sparkle, while the *Chinese Lanterns* design is knitted in a smooth cotton yarn that gives it a great drape. The collar on *Chinese Lanterns* can be worn buttoned or open, adding versatility. For traditional with a twist, the *Cable Funnel Neck Sweater* combines two winter favourites – cables and a cosy tweed. Keep warm!

## ONE TO WATCH: SINCERELY LOUISE

Louise Walker aka *Sincerely Louise* gives her best explanation for her knitted vintage hairstyles, faux fur foxes and future workshops to *Abi Cox*.

### TELL US A BIT ABOUT YOURSELF AND WHAT YOU DO.

I launched my own business, Sincerely Louise, in 2013. I write knitting patterns, design kits and have been commissioned to make knitted pieces by advertising agencies, craft companies and even a few celebrities. My designs are all animal-based and I'm most commonly known for my faux-taxidermy inspired critters.

### WHEN DID YOU START TO EXPERIMENT WITH KNITTING AND WHY DID YOU CHOOSE TO SPECIALISE IN IT?

I started to experiment with knitting in my second year of university. I was studying commercial photography and had learnt to knit one Christmas. A few months passed where I tried out a few jumper and hat patterns but wanted to put together a photo shoot based on hunting. I decided to knit all the props for the shoot, substituting the fur accessories and trophy heads for woollen alternatives and made the patterns up as I went along. I called the shoot 'Given Best' a hunting term that means to let the fox go. I thought this summed up the work perfectly as the faux fur fox in

the images meant that the hunted fox would always be allowed to survive. I then made the 'Woolly Head' project that featured six women in vintage hairstyles, this time I substituted the hair and knitted the wigs. After leaving university the 'Woolly Heads' went viral and I started finding more work as a knitter, rather than pursuing the photography.

### WHAT INSPIRED YOU TO BEGIN YOUR FAUX TAXIDERMY DESIGNS?

The faux taxidermy started with the 'Given Best' project at university but it wasn't until after I graduated that I made more pieces based on the theme. I was actually commissioned by Boden, after seeing the hunting project, to make six trophy heads for their Autumn/Winter press day at Somerset House. This brought me back into the animal world. I was also beginning to design patterns for a few magazines, all fox themed, so the faux taxidermy slowly built up.

### CAN YOU TELL US ABOUT THE MOST UNUSUAL COMMISSION YOU'VE MADE?

For me the most unusual commission would be the puppets I made for Phileas Fogg crisps.

I had to make two hand puppets based on the characters in the advert and they needed to be knitted 'badly'. The first one I made was knitted too well! It was really surreal seeing them on the advert and I always smile when I see the crisps at the super market!

### WHO OR WHAT HAS BEEN YOUR BIGGEST INFLUENCE?

My biggest influence has been my grandmother. She's my knitting hero. Every year I receive an amazing jumper or cardigan and I've always been in awe of the construction. I think that's why I'm not a garment designer; I don't want to step on her toes! She's always helped me when I needed to learn a new stitch or taken me to wool shops to find exactly what I need.

### WHAT HAS BEEN YOUR BIGGEST ACHIEVEMENT TO DATE?

I think the biggest single achievement was the release of my book, *Faux Taxidermy Knits*. I spent so much time not only writing the patterns, but also then photographing it and selling it at knitting fairs and shows. It's an amazing feeling knowing all the hard work paid off.

**IF YOU WEREN'T A TEXTILE DESIGNER, WHAT WOULD YOU BE DOING INSTEAD?**

I think if I weren't a textile designer I'd probably be trying to find my way in the world as a photographer's assistant, but not really loving it. My photography skills greatly aid my work, but it's not something I'm passionate about.

**WHAT ARE YOU WORKING ON NOW?**

I've just finished my winter collection of animals. They're arctic themed, so perfect for Christmas, and it's a range of new heads and accessories. I'm currently planning for the Clothes Show Live, as I'll be trading there in early December. I've been given a huge space in the Educational Area where I'll be teaching how to knit, so I've a lot to prep for it. I'm also planning on releasing an 'easy knit' collection aimed at complete beginners to try encourage school kids to start knitting.

**ANY EXCITING PLANS IN THE PIPELINE?**

I've just moved in to a new studio in central Brixton where I'll be hopefully setting up lots of workshops and knitting nights; I can't wait! I also have a couple of chapters in a craft book coming out and am doing some guest tutoring. I've also been working on a concept for a second book so watch this space.

**IF YOU COULD COLLABORATE WITH ANY DESIGNER, ARTIST OR MAKER, WHO WOULD IT BE?**

I would love to collaborate with the fashion brand The Whitepepper. I shamelessly buy all my outfits from them and constantly Tweet and Instagram them. Maybe they'll get the hint soon!

# THE CRAFTER:

## WORDS FROM THE CRAFT WORLD

They say everyone has a book in them and though I'm not sure that they will all be published, there are certainly a lot of knit and crochet books in the world to entertain us. I love leafing through pattern books and though I rarely actually make any of the designs, I do take inspiration from the style, yarns and colours. Creating your book can take many months, sometimes years, and can be an all-consuming project. Then once you have finally given birth to your opus you have to try and sell it and persuade other people to admire your brand new baby. I met a few people with books coming out this month in some of the strangest places.

Meet **FELIX FORD**, knitting detective. From the small industrial town of Reading, best known for its music festival

and insurance businesses, she is intimately connected with her environment and its history. From brickwork to biscuit tins, her designs are influenced by her surroundings, colour, texture and patterns, and she has written the most marvellous book about stranded colourwork. Her other moniker (aside from actually being called Felicity) is Knitsonik, where she makes field recordings of everyday things that are instantly recognisable; a kettle coming to the boil, the clinking of cups, a car going past outside, the backdrop to our lives.

**MAMETTE CROCHETTE** is a French woman on a mission to get villages in Gers, mid France, crocheting. In her trusty caravan she travels around the local markets setting out her

stall and running classes. I met her on a hot morning in Lectoure where she parked her caravan in the village square and covered the local well in crochet: truly inspiring.

**SASHA KAGAN** will be well known to most knitters for her floral intarsia creations from the 1970s and '80s. The trend for floral designs is such that they are having a well-deserved renaissance right now for a new generation to discover. Her *Classic Collection* takes some of her iconic designs to create a selection of timeless, wearable handknits in wool and cotton.

Crocheting the village well

I'm not a 'dog person' but if I were I'd be homing in on **DEBBIE HUMPHREYS'** new book, *Dogs in Jumpers*, published by Pavilion Books. Born from the need to keep her whippet, Bruno, warm in the cold and rain, REDHOUND make kits with yarn from the lovely West Yorkshire Spinners so you can warm your pooch.

## ALTERNATIVE METHOD FOR WORKING THE PICOT EDGE

The picot edge is a simple and pretty detail that can be easily added to the bottom of any garment, giving the edge a seamless, finished look due to the turned up hem. The instructions suggest turning up the first few rows and using a large needle to catch in the cast edge of the cast on stitches, but here's an alternative method which doesn't require any sewing.

**1.** Using 3.75mm needles and some waste yarn cast on the required number of stitches and beginning with a purl row work an odd number of rows in stocking stitch. Break off yarn; the right side of the work should be facing.

**2.** Use a smooth, slippery yarn (eg mercerized cotton) in a contrasting colour to knit the next row then immediately break off the yarn. You should have a single row of colour. Now turn the work.

**3.** Join in Yarn A and beginning with a purl row work 3 rows in stocking stitch. Work a row of lace holes as instructed by the pattern then work 3 further rows in stocking stitch then turn. The right side of the work is facing for the next row to turn up the hem.

**4.** Now keeping the right side facing you, look at the wrong side of the work. The single row of contrasting yarn makes it easier to identify the first row of loops in the main colour.

**5.** Insert the tip of the left needle 7 rows down under the first loop in the main colour. Lift it onto the left needle then knit it together with the 1st stitch immediately to the left of it.

**6.** Continue working like this for every stitch across the row, lifting up the next loop from 7 rows down and knitting it together with the next stitch already on the needle. After the first few stitches you'll notice the hem taking shape but remember that as you're picking up the bottom of the loops, you'll be one stitch short when you get to the last stitch on the needle.

**7.** Purl 1 row and you're ready to start working from the chart. To remove the waste yarn pull firmly on one end of it and being slippery it will slide out of the work, allowing the initial rows worked in waste yarn to drop.

**8.** The completed picot is seamless and smooth on both sides of the work and there's no extra finishing to do once you've cast off.

### KEEPING THE PATTERN CORRECT DURING SHAPING

Keeping a lace pattern correct can be daunting particularly if the pattern instructions are written rather than in chart form where you can literally see where the next repeat is going to be. When shaping this garment it's important to keep the pattern correct – but what exactly does that mean?

1. The chart above shows a section of the back in chart form with the armhole shaping outlined in red, the 8 stitch pattern repeat outlined in black and the greyed out stitches show the original placement of the pattern. Once the stitches have been cast off over the first 4 rows you'll continue to work straight for the depth of the armhole.

2. You'll notice that there's a stitch repeat that sits right on the edge of the armhole beginning on Rows 14 and 26. The first 2 sts (highlighted in yellow) should be knitted so you're not trying to place a 'yo' in the edge of the work. At the other end of the row the last 2 sts would previously have been worked 'ssk, yo' but as the first 2 sts were worked as normal they should also be knitted as normal to keep the placement of the pattern balanced.

3. One of the basic rules of lace knitting is that you generally only work a 'yo' when it can be balanced by a k2tog or ssk. If you look at the next 2 pattern rows you'll notice this isn't the case so ignore the 'yo' at the beginning of the row and knit the first stitch as normal.

4. The knitted swatch shows how these tiny changes are barely noticeable but keep the pattern correct and the lace holes away from the side edges.

*“When shaping this garment it's important to keep the pattern correct”.*

### TIPS

When working Charts strand yarn not in use ▶

loosely across back of work. Pulling too tightly will cause the work to pucker.

When working from Charts read all RS (even) rows from right to left and all WS (odd) rows from left to right.

### PATTERN NOTES

In order to start the Charts and shaping on a RS row a circular needle is used when there is a single row of colour, this also results in fewer ends to sew in.

### BACK

Using 4mm needles and M, cast on 113[125:137:143] sts.

**Row 1 (RS):** K2, (p1, k2) to end.

### TO FINISH OFF

Press pieces.  
Join underarm seams by grafting together the 2 sets of 6 sts at each underarm as folls:  
Using a blunt tapestry needle and matching yarn:  
**1.** Lay the piece edge to edge. From the back of the work, insert the needle through the first stitch on RH side of the lower piece of fabric.  
**2.** Insert needle through first stitch of upper piece, also from the back of the work.  
**3.** Insert needle through first stitch on lower piece, this time from front to back. Then bring needle from back to front through next stitch on the lower piece. Zigzag from one piece to the other pulling the yarn through as you go.  
**4.** Take care to keep the new row of stitches even and to the same tension as the rest of the fabric.  
Darn in loose ends. ●

## TO FINISH OFF

Weave in all ends.

### Face

Find the Colour A scrap yarn markers added at Row 12 on head. Remove the first and in its place embroider an eye using a small amount of DK yarn. Remove the other marker and repeat for the second eye.

### Ears

Take two ear pieces and place together with the WS facing in. Sew up using mattress stitch, leaving the cast-on edges open. Repeat for the second ear. Weave in the loose ends. Place the left ear between the colour B scrap yarn markers added at row 22 of the head. Remove the markers and sew into place. Repeat for the right hand ear, placing it between the colour C scrap yarn markers added at row 22. Remove the markers and sew into place.

### Legs

Take a leg and pin the seams together, so the cast-on edge forms a circle at the top of the piece. Sew from the bottom of the leg up to the cast-on edge using mattress stitch. Weave in the loose ends and stuff the leg. Repeat for the other three legs.

On the bottom piece find the first two sets of colour B scrap yarn markers, added at rows 40 and 50. Place the first leg between these markers. Pin and sew into place and remove the markers. Repeat this for the second leg, finding the first two sets of colour C scrap yarn markers, added at rows 40 and 50. Remove the markers once sewn. For the back legs find the other sets of colour B scrap yarn markers, added at rows 72

and 82 and pin and sew the third leg into place, removing the markers once sewn. For the final leg find the colour C scrap yarn markers, added at rows 72 and 82 and place the last leg between these. Sew into place and remove the markers.

### Body

Take the top and bottom piece of the bear and place together so the cast-on edges meet at the top and the cast-off edges meet at the bottom. Sew from the cast-on edge to the cast-off edge, then back up towards the cast-on edge on the other side. Leave a hole for stuffing. Stuff the polar bear, keeping the shape. Be careful not to over stuff the head and neck. Add more stuffing to the rear of the piece. Once stuffed sew up the hole and weave in the loose ends. Place the small black felt oval at the end of the snout and sew it into place using black cotton. ●

 **PEONY**

Having had a recent eye operation, I was unsure about starting a new knitting project, but I was inspired by Eline Oftedal's pattern *Peony* in issue 146. I decided to try to use up some of my stash, to my husband's delight, and after trying out a variety of colour combinations, settled on a very similar one to the photograph in the magazine. Not surprising, really, as that was what had first caught my eye. I was only able to knit for short periods but as I was indoors most of the time, they soon added up and I'm delighted with the final result. Now I have to plan my next project as I'm indoors for another couple of weeks yet.

## Match the swatch

To match the sizes and measurements given in our patterns you must make a tension swatch (gauge) before knitting the project. If your swatch turns out larger than ours, try again using smaller needles. If it is too small, try larger needles.

## Sewing up

- 1 Before you sew knitted pieces together, pin the pieces flat to the measurements given on our diagrams.
- 2 Steam press, lightly steam or spray lightly with water depending on washing instructions on the ball band.
- 3 Allow pieces to cool and dry before sewing up.
- 4 To sew up use the yarn you knitted with. Or, if the yarn is textured and hard to sew, use a smooth matching yarn – cotton with cotton, wool with wool, etc.
- 5 Many garments can be made up by sewing shoulder seams first, then setting in sleeve head to armhole, then completing by sewing along the long seam of the sides and sleeves. Each pattern has extra tips where necessary.
- 6 Darn in all ends and finish seams by lightly steaming from wrong side, provided the yarn can be steamed.

## Choosing alternative yarns

- 1 Choose a modern yarn that you like, with a similar look, composition and weight to the one in the old pattern.
- 2 Knit a tension swatch (gauge) and compare it to the one given in the pattern. If they both come out to the same size, you're onto a winner!
- 3 Calculate how much yarn to buy. Many patterns tell you the length of yarn in each ball as well as the weight. So if the pattern uses 10 balls at 130 metres per ball, you know you need up to 1,300 metres of yarn. Check the length per ball of your new yarn and divide the total yarn length by the length in one ball to get the number of balls you need to make the item.
- 4 Compare the total weight of each yarn length. For example if the original pattern had 10 balls at 50g each, the total weight would be 500g. Now that you have worked out how many balls of new yarn you are buying, just multiply the number of balls by the weight per ball. That should roughly match the 500g total that you had for the old yarn. It's just another way to check that you are on the right track.
- 5 Use this same method to substitute yarns for modern patterns, where the yarn is too expensive or difficult to obtain, or if you just want to use up yarn in your stash.

## STAR LETTER

### ON THE BLOCK

I've been knitting for 50 years and am never without something on my needles. I love to try something new and your magazine offers lots of possibilities. It wasn't until recently, when I discovered the pleasure of knitting shawls (no worries about getting the size right) with the many beautiful types, plys and colours of yarns, that I really started to see the reason to block finished items. However, I'm puzzled. What happens when I wash the shawl or garment? Would I have to re-block it every time? What happens with a garment that is blocked before it is made up, such as a jumper?

**Lorraine Muggleton, by email**

**A** I know that for a lot of knitters the pleasurable part of the process is the actual knitting

– whether it's plain, lace, cables or colourwork – then when it comes to finishing the project it suddenly becomes a chore. This is when the jumper/cardigan/stole/blanket (delete as appropriate) gets parked in a dark corner and the next project gets cast on. It's such a shame because after weeks, sometimes months, of work the process of finishing can really transform a crumpled, spaghetti-strewn piece of knitting into a truly beautiful work of art and as you've found, this is definitely the case with shawls.

Although you haven't mentioned a technique I'm going to assume that you're knitting lace shawls. These are most likely to benefit from the blocking process as it opens up and 'sets' the knitting, allowing the yarn to bloom if necessary and defining the lace pattern. Now, I will admit that the pleasure of shawl knitting

did evade me for quite a few years until I took the decision to shave my hair off (this may seem like I've strayed off subject but please stay with me). All was fine in the summer months but when the chill of autumn kicked in I began to realise how much warmer I could be by wearing a shawl around my neck (yes, I know I could just wear a hat but I'm not a huge hat fan). So I decided to design my first couple of shawls and once finished I blocked them out, using pins for the first one and blocking wires for the second, the Diamond corner shawl, which is much larger and shown here. Now a few years down the line, and having worn both shawls and taken them to a number of yarn shows, I found both needed washing, which of course means blocking them all over again. There are a few methods of blocking that involve a little, a lot or no water at all and can mean spraying your knitting, soaking it completely or simply letting the power of the steam iron do the work. Speaking from personal experience, I only use a steam iron to block a project once it's just been finished (cast off) and I don't wash it beforehand. For re-blocking, I washed the shawls using a gentle hand wash detergent then after cupping the shawl in my hands, drained away the water. I then carefully laid it between two large towels and patted gently to remove the excess water. At this stage, with the shawl now damp rather than soaking, I went through the process of using wires/pins to once again block to the required dimensions and then allowed it to dry completely.

**Tip:** when it comes to blocking garments rather than shawls, it's better to do so whilst it's still in pieces because then you've only got a single layer of fabric to deal with rather than a completely seamed garment. Make sure, however, that you sew in the ends first and whatever you do avoid blocking and steaming the ribs as the steam will permanently take out the elasticity. Blocking the individual pieces beforehand is also particularly helpful if your project is worked in Fairisle or stripes as it's easier to match the pattern when sewing the seams together.

## CAST-ON QUERY

**Q** I've been perusing through my magazines and patterns recently and have come across quite a few patterns that I'm lining up for when the cold weather really sets in. The only problem is that a couple of them that I particularly like use a provisional cast-on that uses a crochet hook. Having used pretty much the same cast-on method forever I can't see why you'd want a provisional rather than a permanent cast-on? What does it mean? Do you have a favourite cast-on method and, if so, why?

Bella Scott, by email

**A** It's very easy to settle into a routine of using the same techniques, particularly if you've been knitting for a number of years, but it's great to shake things up and challenge yourself to learn something new. The provisional cast-on is useful because it allows you to pick up the loops from the base of your initial row and work directly into them, creating a smooth, seamless join. This technique is perfect for projects where you want to add an edge that is worked in the opposite direction (to the

main body) or for a project like a scarf where you want the pattern to be mirrored outwards from the centre towards each edge.

My top tip would be to use a smooth-textured yarn in a contrast colour so it's clear exactly which stitches you should be removing. There are a couple of books available that explore different cast on and cast off techniques so perhaps this could be a good time to treat yourself, or leave this page lying out for someone to see? *Cast On Bind Off* by Leslie Ann Bestor (Storey publishing) covers 54 methods with

CAST ON BIND OFF BY LESLIE ANN BESTOR

OISTINS CUSHION DESIGNED BY JEANETTE

step-by-step instructions and photographs and is available from [www.amazon.com](http://www.amazon.com). It's a small, concealed spiral-bound book that is perfect for carrying around in your project bag and it will sit flat on your lap as you try them out.

As for my preferred cast-on method, although there isn't one technique that I use for every project, the provisional cast-on is one of my favourites. It was the only way I could create a seamless mirror-effect cable on my *Oistins* cushion design and once you get the hang of it it's very quick to do.

## LABELED WITH LOVE

**Q** I'm busy knitting my Christmas pressies and as I'm on a bit of a budget I'd like everyone to appreciate the trouble I'm going to. Can you recommend some tasteful and inexpensive labels that I can use to finish them off?

Lorna Ronson by email

**A** Well, I've found a couple of options for you. If you want to add a simple swing tag to the finished item have a look at DoodleDaisy's Etsy shop ([www.etsy.com/uk/shop/Doodledaisy](http://www.etsy.com/uk/shop/Doodledaisy)). You'll find a selection of label designs that began life as sketchbook doodles before being transformed into simple, elegant

laser-cut labels made from manila card and finished with twine. The knitting tags shown cost £2.99 for 24. Alternatively have a look at [snugglymonkey](http://snugglymonkey.com), also on Etsy ([www.etsy.com/uk/](http://www.etsy.com/uk/))

shop/[snugglymonkey](http://snugglymonkey.com)), whose 'This Took Forever' woven labels are much less subtle but will definitely ensure your hard work is appreciated. These are priced at £3.10 for 4.

# PURL ABOUT TOWN

Laura 'Purl Princess' Parkinson gets the warm fuzzies over the kindness of the worldwide knitting community.

At this time of year we all like to hear heartwarming stories of goodwill, although I find that within the knitting community we are lucky enough to be surrounded by these tales all year round. Knitters are generally good folk who are happy to lend a helping hand, needles or yarn wherever they can. Recently when I had a friend in knitting need the fundamental woolly goodness of knitters came into full effect, on a global scale.

It's a classic knitter's tale that begins with a quest. My friend Karen wanted to knit a jumper and I happened to have just the yarn she was searching for. I had bought this yarn for a super-bargain price at a knitting show nearly ten years ago. The yarn was some kind of test batch as it had no ball bands and came in little 25g balls. But it was so gorgeous and such a steal that almost every knitter I knew at the time went home with a few bags each that day. I had let all this gorgeousness linger at the bottom of my stash for too long, so when I learned of Karen's potential project for it I had no issues with passing it over to a loving home.

Delighted with the yarn, Karen knit away happily until one day she had that horrible realisation that so many of us have had: there wasn't going to be enough to finish the project. She knit on in the hope that some miracle would occur, but with only a scrap of yarn left Karen still had the neckband to complete. As the yarn was a test run and had no ball band she felt that that all hope was lost in finding a perfect match.

As soon as I heard of Karen's predicament I instantly wanted to help. So I took hold of the knitting grapevine and gave it a great big shake. I reached out to the knitting community I had

ten years ago, many of whom I had not spoken to in ages, and asked if anyone remembered and still had the yarn in that specific colourway; a tall order indeed. To my surprise knitters in all corners of the globe answered my call. Not only did people remember the yarn and what they knitted with it, but one person still had a few balls left over and was happy to give it to me. Perhaps miracles do happen? The only minor drawback was that the yarn was now five thousand miles away in California. But we knitters do not give up and my Californian saviour managed to find a friend who would soon be travelling to London on a business trip. He agreed to bring the yarn with him and meet me to pass it on. He was dubbed our Yarn Mule!

I am happy to report that the drop-off was a success and the yarn that was bought so long

ago, then travelled halfway across the world and back again, is now ready to finish Karen's jumper. It is still amazing to me that people remembered this particular yarn from so many years ago, responded to a message from someone they haven't spoken to in ages and to top it off went out of their way to get that yarn to its happy ending. All of this was made possible through the kindness and generosity of knitters. I don't know what it is about knitting that makes this wonderful connection between people, but there is definitely something special there and it is truly magical.
